The Centre for DNA Fingerprinting and Diagnostics (CDFD) and the Australian Education International in collaboration with Manipal Academy of Higher Education, Indian Institute of Science and the Queensland Medical Research Institute will be organising the third Indo-Australian Conference on Biotechnology on 6-8 March 2006 at Hyderabad. The theme of the conference this year is 'Vaccines for Cancer, Infectious Diseases, Life Style and Degenerative Diseases'. The conference will bring together top notch scientists from Australia and India to share and discuss important research advances in the field of vaccines and explore possibilities of mutually beneficial collaborations and multicentric networks. The conference will take place in the famous Ramoji Filmcity (the world's largest film city) in Hyderabad.

**Nobel Laureate  
Prof. Peter C Doherty**  
will deliver the  
inaugural lecture
