# Affymetrix Microarray Solutions from SPINCO BIOTECH Life Sciences Division

Genotyping

## Introducing the Genome-Wide SNP ARRAY 6.0

Pure Performance & Genetic Power

- Latest Human SNP Array 6.0 measures more than 1.8 Million Markers for Genetic Variation.
- Highest Genetic Power at Lowest Cost

## Introducing the Gene-Level HUMAN GENE 1.0 ST

New Generation Advanced Gene-Level Expression Profiling

Gene Expression

- Human Gene 1.0 ST array delivers more complete and accurate view compared to traditional 3' microarrays.
- Lower Cost and Simplified Workflow

Affymetrix GeneChip system offers comprehensive solutions for a variety of Microarray Applications including

- ~ Gene Expression
- ~ Genotyping
- ~ Resequencing
