

# Journal of Biosciences

Volume 28, 2003

## SUBJECT INDEX

- AB repeats  
Sequence analysis corresponding to the PPE and PE proteins in *Mycobacterium tuberculosis* and other genomes 169
- Accuracy  
Accuracy of marker-assisted selection with auxiliary traits 569
- Acetate-mevalonate  
An overview of the non-mevalonate pathway for terpenoid biosynthesis in plants 637
- Actinorhizal association  
Hypervariable spacer regions are good sites for developing specific PCR-RFLP markers and PCR primers for screening actinorhizal symbionts 437
- Activation  
The transcriptional activator GAL4-VP16 regulates the intramolecular interactions of the TATA-binding protein 423
- AIDS  
HIV necessary though not sufficient for AIDS 365
- AIDS not contagious  
The chemical bases of the various AIDS epidemics: recreational drugs, anti-viral chemotherapy and malnutrition 383
- AIDS not immunogenic  
The chemical bases of the various AIDS epidemics: recreational drugs, anti-viral chemotherapy and malnutrition 383
- Allium sativum*  
Subcellular localization of Cd in the root cells of *Allium sativum* by electron energy loss spectroscopy 471
- Alnus*  
Hypervariable spacer regions are good sites for developing specific PCR-RFLP markers and PCR primers for screening actinorhizal symbionts 437
- Alpha-tocopherol  
Neutrophil superoxide-anion generating capacity in chronic smoking: effect of long-term  $\alpha$ -tocopherol therapy 23
- Alveolar macrophages  
Nitric oxide production by rat bronchoalveolar macrophages or polymorphonuclear leukocytes following intratracheal instillation of lipopolysaccharide or silica 29
- Ammoniotelism  
Role of ureogenesis in tackling problems of ammonia toxicity during exposure to higher ambient ammonia in the air-breathing walking catfish *Clarias batrachus* 733
- Ammonium chloride  
Role of ureogenesis in tackling problems of ammonia toxicity during exposure to higher ambient ammonia in the air-breathing walking catfish *Clarias batrachus* 733
- Amphibia  
A skeletochronological study of growth, longevity, and age at sexual maturity in a population of *Rana latastei* (Amphibia, Anura) 775
- Ampliconic region  
Human Y-chromosome: a hall of mirrors 533
- Analysis  
Protein evolution: intrinsic preferences in peptide bond formation: a computational and experimental analysis 683
- Animal behaviour  
G Neuweiler: An appreciation 661
- Antennal sensilla  
Antennal sensilla of grasshoppers (Orthoptera: Acrididae) in relation to food preferences and habits 743
- Antheraea mylitta*  
A comparative phylogenetic analysis of full-length *mariner* elements isolated from the Indian tasar silkworm, *Antheraea mylitta* (Lepidoptera: saturniidae) 443
- Antheraea pernyi*  
The expression of GFP under the control of fibroin promoter in primary ovarian cells of *Antheraea pernyi* 691
- Anthropometry  
Status of Austro-Asiatic groups in the peopling of India: An exploratory study based on the available prehistoric, linguistic and biological evidences 507
- Antimicrobial activity  
Reconfirmation of antimicrobial activity in the coelomic fluid of the earthworm *Eisenia fetida andrei* by colorimetric assay 723
- Antioxidant  
Three model systems measure oxidation/nitration damage caused by peroxynitrite 71
- Antioxidant  
Host-pathogen interactions during apoptosis 349
- Antioxidant enzymes  
Biochemical basis of the high resistance to oxidative stress in *Dictyostelium discoideum* 581
- Antioxidants  
Justification for antioxidant preconditioning (or how to protect insulin-mediated actions under oxidative stress) 39
- Antiprotease  
Role of matrix metalloprotease-2 in oxidant activation of Ca<sup>2+</sup> ATPase by hydrogen peroxide in pulmonary vascular smooth muscle plasma membrane 205
- Apoptosis  
Biochemical basis of the high resistance to oxidative stress in *Dictyostelium discoideum* 581
- Artificial photoperiod  
Influence of continuous light and darkness on the secretory pinealocytes of *Heteropneustes fossilis* 613
- Asexual reproduction  
The conservation of redundancy in genetic systems: effects of sexual and asexual reproduction 671

Assimilate transport			
Structural and histochemical studies on grain-filling in the caryopsis of rice ( <i>Oryza sativa</i> L.)	455		
Astrocytoma			
Expression of the neurotrophin receptors Trk A and Trk B in adult human astrocytoma and glioblastoma	181		
ATP assay			
Bioluminometric assay of ATP in mouse brain: Determinant factors for enhanced test sensitivity	379		
Australoid			
Status of Austro-Asiatic groups in the peopling of India: An exploratory study based on the available prehistoric, linguistic and biological evidences	507		
Auxillary traits			
Accuracy of marker-assisted selection with auxiliary traits	569		
Avian			
Avian origins revisited	135		
AZF			
Idiopathic cases of male infertility from a region in India show low incidence of Y-chromosome microdeletion	605		
Azoospermia			
Molecular screening for Yq microdeletion in men with idiopathic oligozoospermia and azoospermia	163		
Idiopathic cases of male infertility from a region in India show low incidence of Y-chromosome microdeletion	605		
Azoospermia factor			
Molecular screening for Yq microdeletion in men with idiopathic oligozoospermia and azoospermia	163		
<i>Azorhizobium</i>			
Mycelial colonization by bradyrhizobia and azorhizobia	243		
Backcross hybrids			
Reduced meiotic fitness in hybrids with heterozygosity for heterochromatin in the speciating <i>Mus terricolor</i> complex	189		
Bacteria			
Integrative microbiology – the third Golden Age	149		
Bacterial plasmids			
Stable propagation of 'selfish' genetic elements	623		
Bacterial strains			
A branched chain fatty acid promotes cold adaptation in bacteria	363		
Baculovirus			
Host-pathogen interactions during apoptosis	349		
Bee			
Silk formation mechanisms in the larval salivary glands of <i>Apis mellifera</i> (Hymenoptera: Apidae)	753		
<b>b</b> -lactam			
Bioprospecting the <i>lat</i> gene in soil samples	597		
Biofilms			
Mycelial colonization by bradyrhizobia and azorhizobia	243		
Biological Diversity Act 2002			
India's Biological Diversity Act 2002: An act for the new millennium	145		
Bioluminescence			
Bioluminometric assay of ATP in mouse brain: Determinant factors for enhanced test sensitivity	379		
Bioprospecting			
Bioprospecting the <i>lat</i> gene in soil samples	597		
Blood coagulation factor VIII			
Blood coagulation factor VIII: A overview	783		
Bombycoidea			
A comparative phylogenetic analysis of full-length <i>mariner</i> elements isolated from the Indian tasar silkworm, <i>Antheraea mylitta</i> (Lepidoptera: saturniidae)	443		
<i>Bradyrhizobium</i>			
Mycelial colonization by bradyrhizobia and azorhizobia	243		
Bronchoalveolar lavage			
Pulmonary inflammation and crystalline silica in respirable coal mine dust: dose-response	61		
Ca <sup>2+</sup> ATPase			
Role of matrix metalloprotease-2 in oxidant activation of Ca <sup>2+</sup> ATPase by hydrogen peroxide in pulmonary vascular smooth muscle plasma membrane	205		
Calcium			
Calcium regulates the expression of a <i>Dictyostelium discoideum</i> asparaginyl tRNA synthetase gene	697		
Calcium-dependent/calmodulin-stimulated protein kinase			
Purification and characterization of a Ca <sup>2+</sup> -dependent/calmodulin stimulated protein kinase from moss chloronema cells	223		
Callusing response			
Genetic analysis of Karnal bunt ( <i>Neovossia indica</i> ) resistance in wheat	199		
<i>Cardamom mosaic virus</i>			
High genetic diversity in the coat protein and 3'untranslated regions among geographical isolates of <i>Cardamom mosaic virus</i> from south India	589		
Cd			
Subcellular localization of Cd in the root cells of <i>Allium sativum</i> by electron energy loss spectroscopy	471		
Cell cycle			
Calcium regulates the expression of a <i>Dictyostelium discoideum</i> asparaginyl tRNA synthetase gene	697		
Cell signalling			
The hepatitis C virus persistence: how to evade the immune system?	287		
Cellular slime moulds			
On the origin of differentiation	523		
Chemical cross-linking			
Regulation of activity of the yeast TATA-binding protein through intra-molecular interactions	413		
Chemical system			
Ilya Prigogine	657		
Chemiluminescence			
Lucigenin chemiluminescence assay as an adjunctive tool for assessment of various stages of inflammation: A study of quiescent inflammatory cells	115		
Chloronema			
Purification and characterization of a Ca <sup>2+</sup> -dependent/calmodulin stimulated protein kinase from moss chloronema cells	223		
Chronic obstructive pulmonary disease			
Effects of exogenous vitamin E supplementation on the levels of oxidants and antioxidants in chronic obstructive pulmonary disease	7		

- Circular dichroism  
Effect of pH, temperature and alcohols on the stability of glycosylated and deglycosylated stem bromelain 709
- Coal  
Induction of interleukin-6 by coal containing bioavailable iron is through both hydroxyl radical and ferryl species 95
- Coal dust  
Pulmonary inflammation and crystalline silica in respirable coal mine dust: dose-response 61
- Coat protein  
High genetic diversity in the coat protein and 3' untranslated regions among geographical isolates of *Cardamom mosaic virus* from south India 589
- Coefficient of infection  
Genetic analysis of Karnal bunt (*Neovossia indica*) resistance in wheat 199
- Cohesion complex  
Stable propagation of 'selfish' genetic elements 623
- Cold adaptation  
A branched chain fatty acid promotes cold adaptation in bacteria 363
- Colorimetric  
Quantification of 20-hydroxyeicosatetraenoic acid by colorimetric competitive enzyme linked immunosorbent assay 109
- Colour noise  
A technique for estimating maximum harvesting effort in a stochastic fishery model 497
- Column chromatography  
Reconfirmation of antimicrobial activity in the coelomic fluid of the earthworm *Eisenia fetida andrei* by colorimetric assay 723
- Community DNA  
Bioprospecting the *lat* gene in soil samples 597
- Competition  
Density-dependent growth and metamorphosis in the larval bronze frog *Rana temporalis* is influenced by genetic relatedness of the cohort 489
- Competitive ELISA  
Quantification of 20-hydroxyeicosatetraenoic acid by colorimetric competitive enzyme linked immunosorbent assay 109
- Complement system  
Viral mimicry of the complement system 249
- Complexity  
The conservation of redundancy in genetic systems: effects of sexual and asexual reproduction 671
- Conservation  
India's Biological Diversity Act 2002: An act for the new millennium 145  
Sample size for collecting germplasms – a polyploid model with mixed mating system 155
- Copy number control  
Stable propagation of 'selfish' genetic elements 623
- Crystalline silica  
Pulmonary inflammation and crystalline silica in respirable coal mine dust: dose-response 61
- Crystallography  
J D Bernal (1901–1971) in perspective 539
- Culture  
Status of Austro-Asiatic groups in the peopling of India: An exploratory study based on the available prehistoric, linguistic and biological evidences 507
- Curcumin  
Curcumin-induced inhibition of cellular reactive oxygen species generation: Novel therapeutic implications 715
- Cymbopogon martinii*  
Sucrose mobilization in relation to essential oil biogenesis during palmarosa (*Cymbopogon martinii* Roxb. Wats. var. *motia* inflorescence development 479
- Cytokinesis  
Midwifery and assisted reproduction in *Dictyostelium* and *Entamoeba* 139
- Cytotoxicity  
Cytotoxicity of yellow sand in lung epithelial cells 77
- Cytotoxicity bioassay  
Lucigenin chemiluminescence assay as an adjunctive tool for assessment of various stages of inflammation: A study of quiescent inflammatory cells 115
- Dark cell  
Influence of continuous light and darkness on the secretory pinealocytes of *Heteropneustes fossilis* 613
- Darwin  
Avian origins revisited 135
- DAZ  
Idiopathic cases of male infertility from a region in India show low incidence of Y-chromosome microdeletion 605
- Decaffeinated coffee  
Genetically decaffeinated coffee 529
- Deglycosylation  
Effect of pH, temperature and alcohols on the stability of glycosylated and deglycosylated stem bromelain 709
- Deleterious mutations  
The conservation of redundancy in genetic systems: effects of sexual and asexual reproduction 671
- Dendritic cells  
Evidence for lipopolysaccharide-induced differentiation of RAW264-7 murine macrophage cell line into dendritic like cells 129
- Desferrioxamine  
Formation of reactive oxygen species in rat epithelial cells upon stimulation with fly ash 51
- Diabetes  
The effect of *Gongronema latifolium* extracts on serum lipid profile and oxidative stress in hepatocytes of diabetic rats 1  
Regulation of glucose utilization and lipogenesis in adipose tissue of diabetic and fat fed animals: Effects of insulin and manganese 215  
Curcumin-induced inhibition of cellular reactive oxygen species generation: Novel therapeutic implications 715
- Dictyostelium*  
Midwifery and assisted reproduction in *Dictyostelium* and *Entamoeba* 139  
Calcium regulates the expression of a *Dictyostelium discoideum* asparaginyl tRNA synthetase gene 697
- Dictyostelium discoideum*  
Biochemical basis of the high resistance to oxidative stress in *Dictyostelium discoideum* 581

Differentiation		Electron spin resonance	
Evidence for lipopolysaccharide-induced differentiation of RAW264-7 murine macrophage cell line into dendritic like cells	129	Role of metal-induced reactive oxygen species generation in lung responses caused by residual oil fly ash	13
Dimerization		Application of electron spin resonance for evaluation of the level of free radicals in the myometrium in full-term pregnancy with normal labour and uterine inertia	19
Regulation of activity of the yeast TATA-binding protein through intra-molecular interactions	413	Electrospray ionization mass spectrometry	
Diploid		Mass distributions of a macromolecular assembly based on electrospray ionization mass spectrometric masses of the constituent subunits	557
Sample size for collecting germplasms – a polyploid model with mixed mating system	155	Enamel hypoplasia	
Dissipative structures		Insights from stable light isotopes on enamel defects and weaning in Pliocene herbivores	765
Ilya Prigogine	657	<i>Entamoeba</i>	
DNA strand		Midwifery and assisted reproduction in <i>Dictyostelium</i> and <i>Entamoeba</i>	139
After DNA at the MRC	665	Enzyme activity	
Dose-response		Effect of pH, temperature and alcohols on the stability of glycosylated and deglycosylated stem bromelain	709
Pulmonary inflammation and crystalline silica in respirable coal mine dust: dose-response	61	ER stress	
Double helix		Regulatory mechanisms of viral hepatitis B and C	311
After DNA at the MRC	665	Erythrocrucorin	
DOXP		Mass distributions of a macromolecular assembly based on electrospray ionization mass spectrometric masses of the constituent subunits	557
An overview of the non-mevalonate pathway for terpenoid biosynthesis in plants	637	<i>Escherichia coli</i>	
Drug-free HIV survivors		Integrative microbiology – the third Golden Age	149
The chemical bases of the various AIDS epidemics: recreational drugs, anti-viral chemotherapy and malnutrition	383	Essential oil	
E6		Sucrose mobilization in relation to essential oil biogenesis during palmarosa ( <i>Cymbopogon martinii</i> Roxb. Wats. var. <i>motia</i> inflorescence development	479
Molecular interactions of ‘high risk’ human papillomaviruses E6 and E7 oncoproteins: implications for tumour progression	337	Evolution	
E7		Origin of the nearly neutral theories of evolution	371
Molecular interactions of ‘high risk’ human papillomaviruses E6 and E7 oncoproteins: implications for tumour progression	337	Excitotoxicity	
Early Pliocene		Phenolic antioxidants attenuate hippocampal neuronal cells damage against kainic acid induced excitotoxicity	121
Insights from stable light isotopes on enamel defects and weaning in Pliocene herbivores	765	Experiments	
Earthworm		Protein evolution: intrinsic preferences in peptide bond formation: a computational and experimental analysis	683
Reconfirmation of antimicrobial activity in the coelomic fluid of the earthworm <i>Eisenia fetida andrei</i> by colorimetric assay	723	Exploration	
Ecological significance		Sample size for collecting germplasms – a polyploid model with mixed mating system	155
Metabolic characteristics of an aerobe isolated from a methylo-trophic methanogenic enrichment culture	235	Expression	
EELS		The expression of GFP under the control of fibroin promotor in primary ovarian cells of <i>Antheraea pernyi</i>	691
Subcellular localization of Cd in the root cells of <i>Allium sativum</i> by electron energy loss spectroscopy	471	Fibroin gene	
Efficiency		The expression of GFP under the control of fibroin promotor in primary ovarian cells of <i>Antheraea pernyi</i>	691
Accuracy of marker-assisted selection with auxiliary traits	569	Flow cytometry	
eIF2 $\alpha$ -kinase		Evidence for lipopolysaccharide-induced differentiation of RAW264-7 murine macrophage cell line into dendritic like cells	129
Host-pathogen interactions during apoptosis	349	Fluorescence	
<i>Eisenia fetida andrei</i>		Effect of pH, temperature and alcohols on the stability of glycosylated and deglycosylated stem bromelain	709
Reconfirmation of antimicrobial activity in the coelomic fluid of the earthworm <i>Eisenia fetida andrei</i> by colorimetric assay	723	Fly ash	
Electron microscopy		Formation of reactive oxygen species in rat epithelial cells upon stimulation with fly ash	51
Silk formation mechanisms in the larval salivary glands of <i>Apis mellifera</i> (Hymenoptera: Apidae)	753		

- Food preference  
 Antennal sensilla of grasshoppers (Orthoptera: Acrididae) in relation to food preferences and habits 743
- Frankia*  
 Hypervariable spacer regions are good sites for developing specific PCR-RFLP markers and PCR primers for screening actinorhizal symbionts 437
- Free radicals  
 Application of electron spin resonance for evaluation of the level of free radicals in the myometrium in full-term pregnancy with normal labour and uterine inertia 19
- Fresh and dry weight of calli  
 Genetic analysis of Karnal bunt (*Neovossia indica*) resistance in wheat 199
- Funaria hygrometrica*  
 Purification and characterization of a Ca<sup>2+</sup>-dependent/calmodulin stimulated protein kinase from moss chloronema cells 223
- GAL4-VP16  
 The transcriptional activator GAL4-VP16 regulates the intramolecular interactions of the TATA-binding protein 423
- GFP  
 The expression of GFP under the control of fibroin promoter in primary ovarian cells of *Antheraea pernyi* 691
- Gene flow  
 Status of Austro-Asiatic groups in the peopling of India: An exploratory study based on the available prehistoric, linguistic and biological evidences 507
- Gene products  
 Lessons in Détente or know thy host: The immunomodulatory gene products of myxoma virus 273
- Gene regulation  
 Regulation of activity of the yeast TATA-binding protein through intra-molecular interactions 413  
 The transcriptional activator GAL4-VP16 regulates the intramolecular interactions of the TATA-binding protein 423
- Genetic diversity  
 High genetic diversity in the coat protein and 3' untranslated regions among geographical isolates of *Cardamom mosaic virus* from south India 589
- Genetic markers  
 Status of Austro-Asiatic groups in the peopling of India: An exploratory study based on the available prehistoric, linguistic and biological evidences 507
- Genetics  
 Origin of the nearly neutral theories of evolution 371
- Genetic system  
 The conservation of redundancy in genetic systems: effects of sexual and asexual reproduction 671
- Geographical isolates  
 High genetic diversity in the coat protein and 3' untranslated regions among geographical isolates of *Cardamom mosaic virus* from south India 589
- Geography  
 Status of Austro-Asiatic groups in the peopling of India: An exploratory study based on the available prehistoric, linguistic and biological evidences 507
- Germplasm  
 Sample size for collecting germplasms – a polyploid model with mixed mating system 155
- Glioblastoma multiforme  
 Expression of the neurotrophin receptors Trk A and Trk B in adult human astrocytoma and glioblastoma 181
- Global warming  
 Global warming and terrestrial carbon sequestration 653
- Glucose utilization  
 Regulation of glucose utilization and lipogenesis in adipose tissue of diabetic and fat fed animals: Effects of insulin and manganese 215
- Gomori-Swift reaction  
 Subcellular localization of Cd in the root cells of *Allium sativum* by electron energy loss spectroscopy 471
- Gongronema latifolium*  
 The effect of *Gongronema latifolium* extracts on serum lipid profile and oxidative stress in hepatocytes of diabetic rats 1
- Grain-filling  
 Structural and histochemical studies on grain-filling in the caryopsis of rice (*Oryza sativa* L.) 455
- Grasshoppers  
 Antennal sensilla of grasshoppers (Orthoptera: Acrididae) in relation to food preferences and habits 743
- Group-I intron  
 Non-Watson Crick base pairs might stabilize RNA structural motifs in ribozymes – A comparative study of group-I intron structures 547
- Growth  
 Density-dependent growth and metamorphosis in the larval bronze frog *Rana temporalis* is influenced by genetic relatedness of the cohort 489  
 A skeletochronological study of growth, longevity, and age at sexual maturity in a population of *Rana latastei* (Amphibia, Anura) 775
- Habit  
 Antennal sensilla of grasshoppers (Orthoptera: Acrididae) in relation to food preferences and habits 743
- Harvested competitive system  
 A technique for estimating maximum harvesting effort in a stochastic fishery model 497
- Hemophilia A  
 Blood coagulation factor VIII: A overview 783
- Hepatitis B virus  
 Regulatory mechanisms of viral hepatitis B and C 311
- Hepatitis C virus  
 The hepatitis C virus persistence: how to evade the immune system? 287  
 Variability or conservation of hepatitis C virus hypervariable region 1? Implications for immune responses 305  
 Regulatory mechanisms of viral hepatitis B and C 311
- Herpesviruses  
 Viral mimicry of the complement system 249
- Heterochromatin  
 Reduced meiotic fitness in hybrids with heterozygosity for heterochromatin in the speciating *Mus terricolor* complex 189

Hippocampus		
Phenolic antioxidants attenuate hippocampal neuronal cells damage against kainic acid induced excitotoxicity	121	
Histochemistry		
Structural and histochemical studies on grain-filling in the caryopsis of rice ( <i>Oryza sativa</i> L.)	455	
HIV		
HIV necessary though not sufficient for AIDS	365	
HIV-1		
HIV-1 Nef control of cell signalling molecules: multiple strategies to promote virus replication	323	
HIV/AIDS		
Can we obtain realistic HIV/AIDS estimates for India?	367	
HIV-free AIDS		
The chemical bases of the various AIDS epidemics: recreational drugs, anti-viral chemotherapy and malnutrition	383	
Host-pathogen		
Host-pathogen interactions during apoptosis	349	
Human Y-chromosome		
Human Y-chromosome: a hall of mirrors	533	
Hydrogen peroxide		
Role of matrix metalloprotease-2 in oxidant activation of Ca <sup>2+</sup> ATPase by hydrogen peroxide in pulmonary vascular smooth muscle plasma membrane	205	
6-hydroxydopamine		
Role of reactive oxygen species in extracellular signal-regulated protein kinase phosphorylation and 6-hydroxydopamine cytotoxicity	83	
20-hydroxyeicosatetraenoic acid		
Quantification of 20-hydroxyeicosatetraenoic acid by colorimetric competitive enzyme linked immunosorbent assay	109	
Hyper-ammonia stress		
Role of ureogenesis in tackling problems of ammonia toxicity during exposure to higher ambient ammonia in the air-breathing walking catfish <i>Clarias batrachus</i>	733	
Hypervariable region 1		
Variability or conservation of hepatitis C virus hypervariable region 1? Implications for immune responses	305	
Hypoxanthosine		
Genetically decaffeinated coffee	529	
Idiopathic infertility		
Idiopathic cases of male infertility from a region in India show low incidence of Y-chromosome microdeletion	605	
Immune response		
Variability or conservation of hepatitis C virus hypervariable region 1? Implications for immune responses	305	
Immune system		
The hepatitis C virus persistence: how to evade the immune system?	287	
Immunohistochemistry		
Expression of the neurotrophin receptors Trk A and Trk B in adult human astrocytoma and glioblastoma	181	
Inbreeding		
Sample size for collecting germplasms – a polyploid model with mixed mating system	155	
Index selection		
Accuracy of marker-assisted selection with auxiliary traits	569	
India		
Can we obtain realistic HIV/AIDS estimates for India?	367	
Infertility		
Molecular screening for Yq microdeletion in men with idiopathic oligozoospermia and azoospermia	163	
Inflorescence		
Sucrose mobilization in relation to essential oil biogenesis during palmarosa ( <i>Cymbopogon martinii</i> Roxb. Wats. var. <i>motia</i> inflorescence development	479	
Information war		
J D Bernal (1901–1971) in perspective	539	
Insulin mimetic		
Regulation of glucose utilization and lipogenesis in adipose tissue of diabetic and fat fed animals: Effects of insulin and manganese	215	
Insulin resistance		
Justification for antioxidant preconditioning (or how to protect insulin-mediated actions under oxidative stress)	39	
Regulation of glucose utilization and lipogenesis in adipose tissue of diabetic and fat fed animals: Effects of insulin and manganese	215	
Integrative microbiology		
Integrative microbiology – the third Golden Age	149	
Interleukin-6		
Induction of interleukin-6 by coal containing bioavailable iron is through both hydroxyl radical and ferryl species	95	
Inverted terminal repeat		
A comparative phylogenetic analysis of full-length <i>mariner</i> elements isolated from the Indian tasar silkworm, <i>Antheraea mylitta</i> (Lepidoptera: saturniidae)	443	
Iron		
Induction of interleukin-6 by coal containing bioavailable iron is through both hydroxyl radical and ferryl species	95	
J D Bernal		
J D Bernal (1901–1971) in perspective	539	
Kinship		
Density-dependent growth and metamorphosis in the larval bronze frog <i>Rana temporalis</i> is influenced by genetic relatedness of the cohort	489	
Klinefelter syndrome		
Idiopathic cases of male infertility from a region in India show low incidence of Y-chromosome microdeletion	605	
Langebaanweg		
Insights from stable light isotopes on enamel defects and weaning in Pliocene herbivores	765	
Language		
Status of Austro-Asiatic groups in the peopling of India: An exploratory study based on the available prehistoric, linguistic and biological evidences	507	
Revealing the workings of universal grammar	535	
Larval salivary gland		
Silk formation mechanisms in the larval salivary glands of <i>Apis mellifera</i> (Hymenoptera: Apidae)	753	

Light cell			
Influence of continuous light and darkness on the secretory pinealocytes of <i>Heteropneustes fossilis</i>	613		
Light microscopy			
Silk formation mechanisms in the larval salivary glands of <i>Apis mellifera</i> (Hymenoptera: Apidae)	753		
Lipid peroxidation			
Biochemical basis of the high resistance to oxidative stress in <i>Dictyostelium discoideum</i>	581		
Lipid profile			
The effect of <i>Gongronema latifolium</i> extracts on serum lipid profile and oxidative stress in hepatocytes of diabetic rats	1		
Lipopolysaccharide			
Nitric oxide production by rat bronchoalveolar macrophages or polymorphonuclear leukocytes following intratracheal instillation of lipopolysaccharide or silica	29		
Evidence for lipopolysaccharide-induced differentiation of RAW264.7 murine macrophage cell line into dendritic like cells	129		
Longevity			
A skeletochronological study of growth, longevity, and age at sexual maturity in a population of <i>Rana latastei</i> (Amphibia, Anura)	775		
Lower respiratory tract			
Severe acute respiratory syndrome (SARS): an old virus jumping into a new host or a new creation?	359		
Lumbricus			
Mass distributions of a macromolecular assembly based on electrospray ionization mass spectrometric masses of the constituent subunits	557		
Lung			
Role of metal-induced reactive oxygen species generation in lung responses caused by residual oil fly ash	13		
Malondialdehyde			
Effects of exogenous vitamin E supplementation on the levels of oxidants and antioxidants in chronic obstructive pulmonary disease	7		
Manganese			
Regulation of glucose utilization and lipogenesis in adipose tissue of diabetic and fat fed animals: Effects of insulin and manganese	215		
Mariner			
A comparative phylogenetic analysis of full-length <i>mariner</i> elements isolated from the Indian tasar silkworm, <i>Antheraea mylitta</i> (Lepidoptera: saturniidae)	443		
Marker-assisted selection			
Accuracy of marker-assisted selection with auxiliary traits	569		
Mass distribution			
Mass distributions of a macromolecular assembly based on electrospray ionization mass spectrometric masses of the constituent subunits	557		
Matrix metalloprotease-2			
Role of matrix metalloprotease-2 in oxidant activation of Ca <sup>2+</sup> ATPase by hydrogen peroxide in pulmonary vascular smooth muscle plasma membrane	205		
Maximum harvesting			
A technique for estimating maximum harvesting effort in a stochastic fishery model	497		
Meiotic fitness			
Reduced meiotic fitness in hybrids with heterozygosity for heterochromatin in the speciating <i>Mus terricolor</i> complex	189		
Metabolic partnerships			
Metabolic characteristics of an aerobe isolated from a methylo-trophic methanogenic enrichment culture	235		
Methanogenic partnerships			
Metabolic characteristics of an aerobe isolated from a methylo-trophic methanogenic enrichment culture	235		
Methanol metabolism			
Metabolic characteristics of an aerobe isolated from a methylo-trophic methanogenic enrichment culture	235		
Methylotrophy			
Metabolic characteristics of an aerobe isolated from a methylo-trophic methanogenic enrichment culture	235		
Migration			
Status of Austro-Asiatic groups in the peopling of India: An exploratory study based on the available prehistoric, linguistic and biological evidences	507		
Mitogen activated protein kinase			
Role of reactive oxygen species in extracellular signal-regulated protein kinase phosphorylation and 6-hydroxy-dopamine cytotoxicity	83		
Mixed cultures			
Metabolic characteristics of an aerobe isolated from a methylo-trophic methanogenic enrichment culture	235		
Molecular Biology			
After DNA at the MRC	665		
Molecular correlations			
Accuracy of marker-assisted selection with auxiliary traits	569		
Molecular marker			
Hypervariable spacer regions are good sites for developing specific PCR-RFLP markers and PCR primers for screening actinorhizal symbionts	437		
Molecular scores			
Accuracy of marker-assisted selection with auxiliary traits	569		
Mon-Khmer			
Status of Austro-Asiatic groups in the peopling of India: An exploratory study based on the available prehistoric, linguistic and biological evidences	507		
Monoclonal antibodies			
Variability or conservation of hepatitis C virus hypervariable region 1? Implications for immune responses	305		
Morphological evolution			
Origin of the nearly neutral theories of evolution	371		
Mortality on anti-HIV drugs			
The chemical bases of the various AIDS epidemics: recreational drugs, anti-viral chemotherapy and malnutrition	383		
Moss CcCaMK			
Purification and characterization of a Ca <sup>2+</sup> -dependent/calmodulin stimulated protein kinase from moss chloronema cells	223		
Mouse brain			
Bioluminometric assay of ATP in mouse brain: Determinant factors for enhanced test sensitivity	379		

MRC Laboratory			
After DNA at the MRC	665	or polymorphonuclear leukocytes following intratracheal instillation of lipopolysaccharide or silica	29
Multi functional protein		Nitric oxide radical	
Vaccinia complement control protein: Multi-functional protein and a potential wonder drug	265	Formation of reactive oxygen species in rat epithelial cells upon stimulation with fly ash	51
Multi-lineage differentiation		Non-MVA pathway	
Bone marrow stromal cells and multi-lineage differentiation	651	An overview of the non-mevalonate pathway for terpenoid biosynthesis in plants	637
Mundari		Non-canonical base pair	
Status of Austro-Asiatic groups in the peopling of India: An exploratory study based on the available prehistoric, linguistic and biological evidences	507	Non-Watson Crick base pairs might stabilize RNA structural motifs in ribozymes – A comparative study of group-I intron structures	547
Mus		Non-exponential AIDS epidemics	
Reduced meiotic fitness in hybrids with heterozygosity for heterochromatin in the speciating <i>Mus terricolor</i> complex	189	The chemical bases of the various AIDS epidemics: recreational drugs, anti-viral chemotherapy and malnutrition	383
<i>Mycobacterium tuberculosis</i> genome		Non-random US/European AIDS	
Sequence analysis corresponding to the PPE and PE proteins in <i>Mycobacterium tuberculosis</i> and other genomes	169	The chemical bases of the various AIDS epidemics: recreational drugs, anti-viral chemotherapy and malnutrition	383
Myometrial tissues		Occupational dusts	
Application of electron spin resonance for evaluation of the level of free radicals in the myometrium in full-term pregnancy with normal labour and uterine inertia	19	Lucigenin chemiluminescence assay as an adjunctive tool for assessment of various stages of inflammation: A study of quiescent inflammatory cells	115
Myxoma virus		Oligoasthenospermia	
Lessons in Détente or know thy host: The immunomodulatory gene products of myxoma virus	273	Idiopathic cases of male infertility from a region in India show low incidence of Y-chromosome microdeletion	605
Nef		Oligozoospermia	
HIV-1 Nef control of cell signalling molecules: multiple strategies to promote virus replication	323	Molecular screening for Yq microdeletion in men with idiopathic oligozoospermia and azoospermia	163
NF- $\kappa$ B		<i>Oryctolagus cuniculus</i>	
Regulatory mechanisms of viral hepatitis B and C	311	Lessons in Détente or know thy host: The immunomodulatory gene products of myxoma virus	273
Neoplasia		Oxidant	
H <sub>2</sub> O <sub>2</sub> -induced higher order chromatin degradation: A novel mechanism of oxidative genotoxicity	57	Role of matrix metalloprotease-2 in oxidant activation of Ca <sup>2+</sup> ATPase by hydrogen peroxide in pulmonary vascular smooth muscle plasma membrane	205
<i>Neovossia indica</i>		Oxidation	
Genetic analysis of Karnal bunt ( <i>Neovossia indica</i> ) resistance in wheat	199	Pulmonary antioxidants exert differential protective effects against urban and industrial particulate matter	101
Neurodegeneration		Oxidative stress	
H <sub>2</sub> O <sub>2</sub> -induced higher order chromatin degradation: A novel mechanism of oxidative genotoxicity	57	The effect of <i>Gongronema latifolium</i> extracts on serum lipid profile and oxidative stress in hepatocytes of diabetic rats	1
Neurodegeneration		H <sub>2</sub> O <sub>2</sub> -induced higher order chromatin degradation: A novel mechanism of oxidative genotoxicity	57
Phenolic antioxidants attenuate hippocampal neuronal cells damage against kainic acid induced excitotoxicity	121	Induction of interleukin-6 by coal containing bioavailable iron is through both hydroxyl radical and ferryl species	95
Neurophysiology		Phenolic antioxidants attenuate hippocampal neuronal cells damage against kainic acid induced excitotoxicity	121
G Neuweiler: An appreciation	661	Regulatory mechanisms of viral hepatitis B and C	311
<i>Neurospora crassa</i>		Biochemical basis of the high resistance to oxidative stress in <i>Dictyostelium discoideum</i>	581
Blueprint of a red mould: Unusual and unexpected findings in the <i>Neurospora</i> genome sequence	361	Curcumin-induced inhibition of cellular reactive oxygen species generation: Novel therapeutic implications	715
Neurotrophin receptors		P35	
Expression of the neurotrophin receptors Trk A and Trk B in adult human astrocytoma and glioblastoma	181	Host-pathogen interactions during apoptosis	349
Neutral theory		Palmarosa	
Origin of the nearly neutral theories of evolution	371	Sucrose mobilization in relation to essential oil biogenesis	
Neutrophil			
Neutrophil superoxide-anion generating capacity in chronic smoking: effect of long-term $\alpha$ -tocopherol therapy	23		
Nitric oxide			
Nitric oxide production by rat bronchoalveolar macrophages			

during palmarosa ( <i>Cymbopogon martinii</i> Roxb. Wats. var. <i>motia</i> inflorescence development	479	Polymorphonuclear leukocytes	
Parametric safe zone		Nitric oxide production by rat bronchoalveolar macrophages or polymorphonuclear leukocytes following intratracheal instillation of lipopolysaccharide or silica	29
A technique for estimating maximum harvesting effort in a stochastic fishery model	497	Modulation of polymorphonuclear leukocytes function by incubation with human serum from oxidant-challenged individuals	91
Paramyxoviruses		Polyphenols	
Viral mimicry of the complement system	249	Three model systems measure oxidation/nitration damage caused by peroxyntirite	71
Parkinson's disease		Polypliod	
Role of reactive oxygen species in extracellular signal-regulated protein kinase phosphorylation and 6-hydroxydopamine cytotoxicity	83	Sample size for collecting germplasms – a polypliod model with mixed mating system	155
Pathogenesis		Poxvirus	
HIV-1 Nef control of cell signalling molecules: multiple strategies to promote virus replication	323	Lessons in Détente or know thy host: The immunomodulatory gene products of myxoma virus	273
Pathology		Poxviruses	
Application of electron spin resonance for evaluation of the level of free radicals in the myometrium in full-term pregnancy with normal labour and uterine inertia	19	Viral mimicry of the complement system	249
Pediatric drug-AIDS		Preconditioning	
The chemical bases of the various AIDS epidemics: recreational drugs, anti-viral chemotherapy and malnutrition	383	Justification for antioxidant preconditioning (or how to protect insulin-mediated actions under oxidative stress)	39
PE-PPE domain		Protease	
Sequence analysis corresponding to the PPE and PE proteins in <i>Mycobacterium tuberculosis</i> and other genomes	169	Role of matrix metalloprotease-2 in oxidant activation of Ca <sup>2+</sup> ATPase by hydrogen peroxide in pulmonary vascular smooth muscle plasma membrane	205
Peptide neighbour preferences		Pulmonary antioxidants	
Protein evolution: intrinsic preferences in peptide bond formation: a computational and experimental analysis	683	Pulmonary antioxidants exert differential protective effects against urban and industrial particulate matter	101
Peroxyntirite		Pulmonary inflammation	
Three model systems measure oxidation/nitration damage caused by peroxyntirite	71	Pulmonary inflammation and crystalline silica in respirable coal mine dust: dose-response	61
Phytochemicals		Quorum sensing	
Phenolic antioxidants attenuate hippocampal neuronal cells damage against kainic acid induced excitotoxicity	121	On the origin of differentiation	523
Picornaviruses		<i>Rana latastei</i>	
Viral mimicry of the complement system	249	A skeletochronological study of growth, longevity, and age at sexual maturity in a population of <i>Rana latastei</i> (Amphibia, Anura)	775
Pineal		<i>Rana temporalis</i>	
Influence of continuous light and darkness on the secretory pinealocytes of <i>Heteropneustes fossilis</i>	613	Density-dependent growth and metamorphosis in the larval bronze frog <i>Rana temporalis</i> is influenced by genetic relatedness of the cohort	489
PKR		Random African AIDS	
Host-pathogen interactions during apoptosis	349	The chemical bases of the various AIDS epidemics: recreational drugs, anti-viral chemotherapy and malnutrition	383
Plants			383
An overview of the non-mevalonate pathway for terpenoid biosynthesis in plants	637	RAP-PCR	
Plasmid segregation		Calcium regulates the expression of a <i>Dictyostelium discoideum</i> asparaginyl tRNA synthetase gene	697
Stable propagation of 'selfish' genetic elements	623	Rat lung epithelial cells	
PM <sub>10</sub>		Formation of reactive oxygen species in rat epithelial cells upon stimulation with fly ash	51
Pulmonary antioxidants exert differential protective effects against urban and industrial particulate matter	101	Reactive nitrogen species	
Pneumoconiosis		Cytotoxicity of yellow sand in lung epithelial cells	77
Induction of interleukin-6 by coal containing bioavailable iron is through both hydroxyl radical and ferryl species	95	Role of metal-induced reactive oxygen species generation in lung responses caused by residual oil fly ash	13
PPE, PE proteins			
Sequence analysis corresponding to the PPE and PE proteins in <i>Mycobacterium tuberculosis</i> and other genomes	169		
<i>Podospora anserina</i>			
Het up mould unleashes a sporekiller prion	647		
Polarized light microscopy			
Silk formation mechanisms in the larval salivary glands of <i>Apis mellifera</i> (Hymenoptera: Apidae)	753
