

Supplementary data:

Molecular analysis of *Albizia* species using AFLP markers for conservation strategies

Subbashree Aparajita and Gyana Ranjan Rout

J. Genet. **89**, xx–xx

Table 1. Details of the *Albizia* species used in the present study.

Species	Place of collection
<i>Albizia aamara</i> (Roxb.) Boiv.	Regional Plant Resource Centre, Bhubaneswar
<i>Albizia lebbbeck</i> (Linn.) Benth	Dehradun / Anantapur / Malyagiri / Talcher / Chilika / Regional Plant Resource Centre, Bhubaneswar
<i>Albizia odoratissima</i> (Linn.f.) Benth.	Malyagiri / Talcher / Regional Plant Resource Center, Bhubaneswar
<i>Albizia procera</i> Benth.	Dehradun / Malyagiri / Talcher / Chilika / Regional Plant Resource Centre, Bhubaneswar
<i>Albizia stipulate</i> (Roxb.) Boiv.	Regional Plant Resource Centre, Bhubaneswar
<i>Albizia thomsonii</i> Brandis.	Regional Plant Resource Centre, Bhubaneswar
<i>Albizia kalkora</i> Prain	Regional Plant Resource Centre, Bhubaneswar, India
<i>Albizia lucida</i> Benth	Harisankar / Piakamala / Talcher/ Sambalpur / Regional Plant Resource Centre, Bhubaneswar
<i>Albizia orisensis</i> Sahani and Belmet	Talcher
