

Bulletin of Materials Science

Notes on the preparation of papers

Authors may communicate their research work as papers and rapid communications to the Bulletin of Materials Science. They may also submit topical reviews.

We have now switched over to an Editorial Management System and the author(s) can now submit the paper online at www.editorialmanager.com/boms

It will have the advantage that the author(s) would be able to track their paper through the refereeing process. If you have any difficulty, you may contact the editorial office and they will be happy to answer any questions that you may have.

Submission of a script will be held to imply that it has not been previously published and is not under consideration for publication elsewhere; and further that, if accepted, it will not be published elsewhere.

Typescript

Papers must be typed double spaced with ample margin on all sides. Text with embedded graphics should be in Microsoft Word Format.

Title page

1. The title of the paper must be brief but informative. Serial titles are to be avoided.
2. The names with initials of authors and the name and address of the institution where the work was done must be given.
3. An abbreviated running title of not more than 50 letters and spaces must also be given.
4. Authors are requested to provide e-mail and fax addresses while submitting the script online.

Abstract

Papers must have a brief abstract of the significant results reported in the paper.

Keywords

Between 3 and 6 keywords must be provided for indexing and information retrieval.

The Text

The paper must be divided into sections starting preferably with 'Introduction' and ending with 'Conclusions'. The main sections should be numbered 1, 2 etc, the sub-sections 1.1, 1.2, etc, and further sub-sections (if necessary) 1.1a, 1.1b, etc.

Tables

All tables must be numbered consecutively in arabic numerals in the order of occurrence in the text; they should be self-contained and have a descriptive title.

Figures

All figures including photographs should be numbered consecutively in arabic numerals in the order of appearance in the text. **All photographs should be in JPG (300 dpi) format and line drawings in TIFF (600 dpi) format.**

Units

Units and associated symbols must invariably follow SI practice.

References

References should be cited in the text by author and year, not by number. If there are more than two authors, reference should be to the first author followed by et al in the text. References at the end of the paper should be listed alphabetically by author's names, followed by initials, year of publication, name of the journal (abbreviated according to the World List of Scientific Periodicals, Butterworths, London), volume number, and number of the first page. Reference to books should include: name(s) of author(s), initials, year of publication, title of the book, edition if not the first, initials and name(s) of editor(s), if any, preceded by ed(s), place of publication, publisher and chapter or pages referred to. References to thesis must include the year, the title of the thesis, the degree for which submitted, the University and the place.

Footnotes

Footnotes must be avoided if possible but when necessary should be numbered consecutively, and typed on a separate sheet.

Proofs

Authors are requested to prepare the manuscript carefully before submitting it for publication to minimize corrections and alterations in the proof which increase publication costs. PDF proof will be sent to the author by email. The author should send it back with corrections/clarifications, if any, by email.

Reprints

50 reprints of each article will be supplied free of charge.
