CONTENTS

Special Issue on Nonlinear Structural Analysis

Foreword	341	<i>T K Varadan and Gangan Prathap</i>
Nonlinear analysis of doubly curved shells: An analytical approach	343	<i>Y Nath and K Sandeep</i>
Nonlinear structural analysis using integrated force method	353	<i>N R B Krishnam Raju and J Nagabhushanam</i>
Nonlinear oscillations of laminated plates using an accurate four-node rectangular shear flexible material finite element	367	<i>Gajbir Singh and G Venkateswara Rao</i>
An efficient method for nonlinear analysis of layered shells	381	<i>W P Prema Kumar and R Palaninathan</i>
Delamination tolerance studies in laminated composite panels	409	<i>K L Singh, B Dattaguru, T S Ramamurthy and P D Mangalagiri</i>
