Volume 26, 2001

CONTENTS

An indigenously developed electronic control system for Langmuir–Blodgett film deposition set-up	<i>C P Navathe, B L Dashora, A Jaiswal, D S Thakur, U N Roy and L M Kukreja</i>	213–225
Robust correlation tracker	<i>M S Kishore and K V Rao</i>	227–236
Radar signal design problem with network processing	<i>C K Rao and P S Moharir</i>	237–241
Advances in nonlinear vibration analysis of structures. Part-I. Beams	<i>Sudhakar R Marur</i>	243–249
Finite element simulation of internal flows with heat transfer using velocity correction approach	<i>B S V Patnaik, Y T K Gowda, M S Ravisankar, P A A Narayana and K N Seetharamu</i>	251–283
A cylindrical furnace for absorption spectral studies	<i>R Venkatasubramanian</i>	285–289
Application of optimisation techniques in groundwater quantity and quality management	<i>Amlan Das and Bithin Datta</i>	293–316
Simulation of sea water intrusion in coastal aquifers: Some typical responses	<i>Amlan Das and Bithin Datta</i>	317–352
Axial symmetric rotation of a partially immersed body in a liquid with a surfactant layer	<i>Sunil Datta and Nidhi Pandya</i>	353–362
Surface waves in fibre-reinforced anisotropic elastic media	<i>P R Sengupta and Sisir Nath</i>	363–370
Effect of dynamic visco-elasticity on vertical and torsional vibrations of a half-space	<i>Prakash Chandra Pal</i>	371–377
A note on the stability of motion of a projectile	<i>S D Naik</i>	379–385
Fundamentally excited flow past a surface-mounted rib. Part 1: Turbulent structures characterisation	<i>P K Panigrahi</i>	387–412

Fundamentally excited flow past a surface-mounted rib. Part 2: Kinetic energy budget details	<i>P K Panigrahi</i>	413–437
A note on critical flow section in collector channels	<i>Subhasish Dey</i>	439–445
Modelling, analysis and acceleration of a printed circuit board fabrication process	<i>K S Aithal, Y Narahari and E Manjunath</i>	447–463
A model with nonzero rise time for AE signals	<i>M A Majeed and C R L Murthy</i>	465–474
Design and construction of double-Blumlein HV pulse power supply	<i>Deepak K Gupta and P I John</i>	475–484
Application of chaotic noise reduction techniques to chaotic data trained by ANN	<i>C Chandra Shekara Bhatt, M R Kaimal and T R Ramamohan</i>	485–494
Surface pressure model for simple delta wings at high angles of attack	<i>A A Pashilkar</i>	495–515
Modelling flow through unsaturated zone: Sensitivity to unsaturated soil properties	<i>K S Hari Prasad, M S Mohan Kumar and M Sekhar</i>	517–528
Disturbances due to mechanical and thermal sources in a generalized thermo-microstretch elastic half space	<i>Rajneesh Kumar and Sunita Deswal</i>	529–547
A set of pathological tests to validate new finite elements	<i>K Mallikarjuna Rao and U Shrinivasa</i>	549–590
Optimal design of a beam stop for Indus-2 using finite element heat transfer studies	<i>A K Sinha, K J S Sawhney and R V Nandedkar</i>	591–602
A second-order autocorrelator for single-shot measurement of femtosecond laser pulse durations	<i>M Raghuramaiah, A K Sharma, P A Naik, P D Gupta and R A Ganeev</i>	603–611
Special Issue on Advances in Solidification Processing:		
Foreword	<i>Biswajit Basu</i>	1–3
Segregation in cast products	<i>A Ghosh</i>	5–24
Solidification microstructure development	<i>G Phanikumar and K Chattopadhyay</i>	25–34
Rapid solidification in thermal spray deposition: Microstructure and modelling	<i>Guo-Xiang Wang, V Prasad and S Sampath</i>	35–57

Solidification under microgravity	<i>B K Dhindaw</i>	59–69
Modelling of transport phenomena and defects in crystal growth processes	<i>S Pendurti, H Zhang and V Prasad</i>	71–101
Finite element modelling of solidification phenomena	<i>K N Seetharamu, R Paragasam, G A Quadir, Z A Zainal, B S Prasad and T Sundararajan</i>	103–120
Effect of thermosolutal convection on directional solidification	<i>S V Garimella and J E Simpson</i>	121–138
Modelling of convection during solidification of metal and alloys	<i>A K Singh, R Pardeshi and B Basu</i>	139–162
Thin-slab casting – New possibilities	<i>A Chatterjee and S Chandra</i>	163–178
Solidification control in continuous casting of steel	<i>S Mazumdar and S K Ray</i>	179–198
Solidification behaviour in plasma arc welding	<i>G Ravichandran</i>	199–211
Erratum		291
Subject Index		613–618
Author Index		618–620
