CONTENTS

| | | |
|---|--|---------|
| Thermal effect on gravity waves in a compressible liquid layer over a solid half-space under initial hydrostatic stress | <i>S K Addy and N R Chakraborty</i> | 1–10 |
| Evaluation of LES models for flow over bluff body from engineering application perspective | <i>S Vengadesan and A Nakayama</i> | 11–20 |
| Ion cyclotron resonance heating system on Aditya | <i>D Bora et al</i> | 21–46 |
| Noise assessment inside the Greater Cairo Underground second-line Metro | <i>Mostafa E Aly</i> | 47–55 |
| Harmonics and voltage stability analysis in power systems including thyristor-controlled reactor | <i>M Uzunoglu</i> | 57–67 |
| A novel technique for estimation of skew in binary text document images based on linear regression analysis | <i>P Shivakumara, G Hemantha Kumar, D S Guru and P Nagabhushan</i> | 69–85 |
| Hundred years of the boundary layer – Some aspects | <i>E G Tulapurkara</i> | 499–512 |
| Viscous effect at an orthotropic micropolar boundary surface | <i>Rajneesh Kumar and Praveen Ailawalia</i> | 513–525 |
| Effect of boundaries on the dynamic interaction of a liquid-filled porous layer and a supporting continuum | <i>M Tajuddin and G Narayan Reddy</i> | 527–535 |
| Heat transfer and thermal stress analysis in grooved tubes | <i>Veysel Özceyhan and Necdet Altuntop</i> | 537–553 |
| Thermal deformation in a thin circular plate due to a partially distributed heat supply | <i>N L Khobragade and K C Deshmukh</i> | 555–563 |
| Two-dimensional static deformation of an anisotropic medium | <i>Kuldip Singh, Dinesh Kumar Madan, Anita Goel and Nat Ram Garg</i> | 565–583 |

| | | |
|--|--|---------|
| Neutronic analysis of a high power density hybrid reactor using innovative coolants | <i>Senay Yalçın, Mustafa Übeyli and Adem Acir</i> | 585–600 |
| A simple optical fibre-linked remote control system for multiple devices | <i>M A Sumesh, Bobby Joseph and D P Mahapatra</i> | 601–609 |
| Galerkin finite element methods for wave problems | <i>T K Sengupta, S B Talla and S C Pradhan</i> | 611–623 |
| Numerical study on transient local entropy generation in pulsating turbulent flow through an externally heated pipe | <i>Hüseyin Yapıcı, Gamze Baştürk, Nesrin Kayataş and Şenay Yalçın</i> | 625–648 |
| Fuzzy logic control of vehicle suspensions with dry friction nonlinearity | <i>L Emir Sakman, Rahmi Guclu and Nurkan Yagiz</i> | 649–659 |
| Inverse transient thermoelastic deformations in thin circular plates | <i>A K Tikhe and K C Deshmukh</i> | 661–671 |
| On the drop-weight testing of alumina/aluminum laminated composites | <i>Mustafa Übeyli, R Orhan Yildirim and Bilgehan Ögel</i> | 673–686 |
| Time and speed of fruit drying on batch fluid-beds | <i>I Bauman, Z Bobić, Z Đaković and M Ukrainczyk</i> | 687–698 |
| Optimization of machining techniques – A retrospective and literature review | <i>Aman Aggarwal and Hari Singh</i> | 699–711 |
| Detection of outer raceway bearing defects in small induction motors using stator current analysis | <i>İ Y Önel, K B Dalci and İ Senol</i> | 713–722 |
| Assessment of retention basin volume and outlet capacity in urban stormwater drainage systems with respect to water quality | <i>M A Yurdusev, A A Kumanlioğlu and B Solmaz</i> | 723–734 |
| Simulation of temperature distribution by finite element analysis on different components of the EXAFS beamline at INDUS-II synchrotron source | <i>D Bhattacharyya, S N Jha, N C Das, V Verma, S G Markandeya and A K Ghosh</i> | 735–755 |
| Development of a 300-kV Marx generator and its application to drive a relativistic electron beam | <i>Y Choyal, L Gupta, P Vyas, P Deshpande, A Chaturvedi, K C Mittal and K P Maheshwari</i> | 757–764 |
| Real object recognition using moment invariants | <i>M Mercimek, K Gulez and T V Mumcu</i> | 765–775 |

Special Issue on electronic e-Commerce and electronic business

| | | |
|---|---|---------|
| Foreword | | 87–88 |
| Building blocks of e-commerce | <i>V Rajaraman</i> | 89–117 |
| e-Commerce security – A life cycle approach | <i>A Sengupta, C Mazumdar and M S Barik</i> | 119–140 |
| Trust management for e-transactions | <i>Vishwas Patil and R K Shyamasundar</i> | 141–158 |
| Web services in the retail industry | <i>Sudeep Mallick, Anuj Sharma, B V Kumar and S V Subrahmanya</i> | 159–177 |
| Combinatorial auctions for electronic business | <i>Y Narahari and Pankaj Dayama</i> | 179–211 |
| Allocation of advertising space by a web service provider using combinatorial auctions | <i>Sandeep Dulluri and N R Srinivasa Raghavan</i> | 213–230 |
| Dynamic pricing models for electronic business | <i>Y Narahari, C V L Raju, K Ravikumar and Sourabh Shah</i> | 231–256 |
| Pricing strategies for information goods | <i>Siva Viswanathan and G Anandalingam</i> | 257–274 |
| Data mining in e-commerce: A survey | <i>N R Srinivasa Raghavan</i> | 275–289 |
| Interestingness of association rules in data mining: Issues relevant to e-commerce | <i>Rajesh Natarajan and B Shekar</i> | 291–309 |
| Demand sensing in e-business | <i>K Ravikumar, Atul Saroop, H K Narahari and Pankaj Dayama</i> | 311–345 |
| Monte Carlo methods for pricing financial options | <i>N Bolia and S Juneja</i> | 347–385 |
| Integrated planning in supply chains with buy-side and sell-side marketplaces | <i>Roshan Gaonkar and N Viswanadham</i> | 387–402 |
| e-Commerce and supply chains: Modelling of dynamics through fuzzy enhanced high level petri net | <i>Vipul Jain, S Wadhwa and S G Deshmukh</i> | 403–429 |
| Successful e-marketplaces: An institutional perspective | <i>T R Madanmohan</i> | 431–444 |

| | |
|---|---------|
| Perishable inventory management and dynamic pricing using RFID technology <i>A Chande, S Dhekane, N Hemachandra and N Rangaraj</i> | 445–462 |
| Design of supply chains: Unrealistic expectations on collaboration <i>P Balasubramanian and Ashish Kumar Tewary</i> | 463–473 |
| Models for measuring and predicting shareholder value: A study of third party software service providers <i>N Viswanadham and Poornima Luthra</i> | 475–498 |
| Subject index | 777–782 |
| Author index | 783–786 |
