

Announcement

National Seminar on High Resolution and Analytical Microscopy

The Seminar jointly organised by the Metallurgy Programme, the Reactor Research Centre and the Metal Sciences Division of the Indian Institute of Metals will be held during 18-20 February 1982 at the Reactor Research Centre, Kalpakkam. The Electron Microscope Society of India and the Indian Vacuum Society are also actively supporting the seminar.

The seminar will consist of invited lectures and experts from India and abroad are being invited to participate in the seminar. The following topics will be covered : 1. High resolution microscopy 2. Analytical electron microscopy 3. Advances in transmission and scanning electron microscopy 4. Field ion microscopy and atom probe microanalysis 5. Developments in electron diffraction techniques and 6. Applications of high resolution and analytical microscopy in metallurgy and materials science. It is proposed to bring out the Proceedings of the seminar in a suitable form, possibly as a special issue of the Transactions of the Indian Institute of Metals.
