

# Journal of Biosciences

## Instructions to Authors

The *Journal of Biosciences* welcomes contributions containing the results of original research in any area of biology. Both brief communications (within 4 typed pages or 1500 words of text) and full-length articles are accepted. There are no page charges for printing colour photographs. Fifty reprints will be supplied free of charge.

Manuscripts may be sent either directly to the Editorial Office or to a member of the Editorial Board (see end sheet) whose expertise falls within the relevant area. However, in the latter case it is essential that the concerned member be contacted in advance.

Submission of a manuscript will be held to imply that it has not been previously published and is not under consideration for publication elsewhere; and further, that if accepted, it will not be published elsewhere.

**Authors are strongly encouraged to submit their manuscripts in electronic form on a floppy diskette or by e-mail to [jbiosci@ias.ernet.in](mailto:jbiosci@ias.ernet.in). Figures and photographs (600 DPI) can be included as .jpg, .bmp or .pdf attachments. In case the figures are not of good quality, you may be requested to send a hard copy of the manuscript with four sets of original figures and photographs.**

For submissions by regular mail, four copies of each manuscript should be sent, **each** with a set of original figures and photographs, typed on one side, double-spaced and with a 30 mm margin on all sides. This also applies to the abstract, tables, figure captions and list of references, each of which should be typed on separate sheets. Three to six keywords must be provided.

*Authors are invited to suggest names and addresses of four experts who in their opinion can review the paper. The final choice will however remain with the Editorial Board.*

For more details, see a recent issue, check our Website or write to the Editorial Office.
