

# **Applied Photochemistry**

## **Foreword**

This issue of the Proceedings contains articles delivered by some invited distinguished members of the international photochemistry community, at the third biannual International Conference on Solar Energy Storage and Applied Photochemistry. This conference was organized by the Photoenergy Centre in cooperation with the Department of Chemistry, Faculty of Science of Ain Shams University during January 8th to 14th, 1995 at Cairo, Egypt.

We would like to thank all the active participants who contributed to this conference. We sincerely hope that the conference has stimulated new and creative research in the area.

December 1995
