

SUBJECT INDEX

- 4-Amino-3-hydrazino-5-mercapto-1,2,4-triazole  
 Synthesis, spectroscopic, electrochemical  
 and luminescence studies of ruthenium(II)  
 polypyridyls containing multifunctionalized  
 1,2,4-triazole as co-ligand 449
- ABO<sub>3</sub>-type perovskite oxides  
 A method for increasing the surface area of  
 perovskite-type oxides 535
- AM1 SCF-MO method  
 Generation, structure and reactivity of  
 arynes: A theoretical study 97
- Ab initio* calculations  
 Theoretical studies on the conformations of  
 selenamides 623
- Alkaline copper complexes  
 Electrochemical behaviour of alkaline copper  
 complexes 543
- Alkaline earth metals  
 Extended metal-organic solids based on  
 benzenepolycarboxylic and aminobenzoic  
 acids 273
- Alkyl amides  
 Density functional studies of molecular  
 structures of N-methyl formamide, N,N-  
 dimethyl formamide, and N,N-dimethyl  
 acetamide 35
- Alkyl cobaloximes  
 Coenzyme B<sub>12</sub> model studies: An HSAB  
 approach to the equilibria and kinetics of  
 axial ligation of alkyl(aquo) cobaloximes by  
 imidazole and cyanide 579
- L-Aminoacids  
 Synthesis and characterization of mixed li-  
 gand complexes of bio-metals with pyrimid-  
 ine nucleoside (uridine) and amino acids 593
- Aminobenzoic acid  
 Extended metal-organic solids based on  
 benzenepolycarboxylic and aminobenzoic  
 acids 273
- Anionic surfactants  
 Kinetic investigation of the oxidation of N-  
 alkyl anilines by peroxomonophosphoric  
 acid in anionic surfactant sodium lauryl  
 sulphate 615
- Antitubercular activity  
 Novel application of Wiener *vis-à-vis* Szeged  
 indices: Antitubercular activities of  
 quinolones 137
- Antitumour agents  
 Topological estimation of proton-ligand  
 formation constants of potential antitumour  
 agents: Salicylhydroxamic acids 43
- Aromatic hydroxylation  
 Chemistry of azopyrimidines. Part IV.  
 Aromatic hydroxylation in palladium(II)-  
 arylazopyrimidines 523
- Arylazopyrimidines  
 Chemistry of azopyrimidines. Part IV.  
 Aromatic hydroxylation in palladium(II)-  
 arylazopyrimidines 523
- Aryne bond  
 Generation, structure and reactivity of  
 arynes: A theoretical study 97
- Association constants  
 Coenzyme B<sub>12</sub> model studies: An HSAB  
 approach to the equilibria and kinetics of  
 axial ligation of alkyl(aquo) cobaloximes by  
 imidazole and cyanide 579
- Asymmetric cyclopropanation  
 An overview on the applications of 'Doyle  
 catalysts' in asymmetric cyclopropanation,  
 cyclopropanation and C-H insertion reactions  
 197
- Benzene mechanism  
 Generation, structure and reactivity of  
 arynes: A theoretical study 97
- Benzene tetracarboxylic acid  
 Extended metal-organic solids based on  
 benzenepolycarboxylic and aminobenzoic  
 acids 273
- Bovine serum albumin  
 Hydrophobic interactions of phenox-  
 azine modulators with bovine serum albumin  
 51
- C-H insertions  
 An overview on the applications of 'Doyle  
 catalysts' in asymmetric cyclopropanation,  
 cyclopropanation and C-H insertion reactions  
 197
- Caesalpinia bonducella*  
 Copper(II) complex of 3-cinnamalidene-  
 acetylacetone: Synthesis and characterisation  
 515
- Catalytic combustion of methane  
 A method for increasing the surface area of  
 perovskite-type oxides 535
- CdS  
 Synthesis of cadmium sulphide in pure and  
 mixed Langmuir-Blodgett films of *n*-octa-  
 decylsuccinic acid 109

- Chalcogenides  
 Palladium and platinum organo-chalcogenolates and their transformation into metal chalcogenides 187
- Characteristic polynomials  
 Characteristic polynomials of linear polyacenes and their subspectrality 27
- Charge-transfer  
 Charge-transfer spectra of ferrocene in halo-carbon solvents under photoexcitation 475
- Chiral catalysis  
 An overview on the applications of 'Doyle catalysts' in asymmetric cyclopropanation, cyclopropanation and C-H insertion reactions 197
- Chiral methyl phenidate  
 An overview on the applications of 'Doyle catalysts' in asymmetric cyclopropanation, cyclopropanation and C-H insertion reactions 197
- Cluster source  
 An indigenous cluster beam apparatus with a reflectron time-of-flight mass spectrometer 83
- Coal tar pitch  
 Improved technology for manufacture of carbon electrodes 19
- Conformations  
 Theoretical studies on the conformations of selenamides 623
- Coordination polymer  
 Extended metal-organic solids based on benzenepolycarboxylic and aminobenzoic acids 273
- Coordination properties  
 Stereochemical trends of metal derivatives of some heterocyclic-2-thiones and thiosemicarbazones 323
- Coordination-position isomers  
 Macrocyclic effects upon isomeric  $\text{Cu}^{\text{II}}\text{M}^{\text{II}}$  and  $\text{M}^{\text{II}}\text{Cu}^{\text{II}}$  cores. Formation with unsymmetric phenol-based macrocyclic ligands 291
- Corrosion inhibition  
 Effect of piperidones on hydrogen permeation and corrosion inhibition of mild steel in acidic solutions 127
- Crosslinked oxalates  
 Inorganic-organic hybrid framework solids 249
- Crystal structure  
 Macrocyclic effects upon isomeric  $\text{Cu}^{\text{II}}\text{M}^{\text{II}}$  and  $\text{M}^{\text{II}}\text{Cu}^{\text{II}}$  cores. Formation with unsymmetric phenol-based macrocyclic ligands 291
- Crystal structure analysis  
 Replacing the hydrogen in the intermolecular hydrogen bond of the cyanuric acid-bipyridyl adduct by Ag(I) 147
- Hydrogen bonded complexes of cyanuric acid with pyridine and guanidinium carbonate 607
- Cu(II) phenolate complexes  
 Models for the active site in galactose oxidase: Structure, spectra and redox of copper(II) complexes of certain phenolate ligands 223
- Cyanuric acid-Ag-4,4'-bipyridyl adduct  
 Replacing the hydrogen in the intermolecular hydrogen bond of the cyanuric acid-bipyridyl adduct by Ag(I) 147
- Cyanuric acid-pyridine adduct  
 Hydrogen bonded complexes of cyanuric acid with pyridine and guanidinium carbonate 607
- Cyclic voltammetry and electron paramagnetic resonance  
 Exogenous bridging and nonbridging in Cu(II) complexes of Mannich base ligands: Synthesis and physical properties 559
- Cyclopropanation  
 An overview on the applications of 'Doyle catalysts' in asymmetric cyclopropanation, cyclopropanation and C-H insertion reactions 197
- DNA binding and photocleavage  
 Cobalt(III), nickel(II) and ruthenium(II) complexes of 1,10-phenanthroline family of ligands: DNA binding and photocleavage studies 1
- Density functional theory  
 Density functional studies of molecular structures of N-methyl formamide, N,N-dimethyl formamide, and N,N-dimethyl acetamide 35
- Diastereomers  
 Modern aspects on tri- and tetranuclear cluster complexes supported by phosphido bridges 209
- Dibromo-*p*-methyl-methylsulfonazo (DBMMSA)  
 Investigation of properties of rare earth complexes with dibromo-*p*-methyl-methyl-sulfonazo by spectral correction technique 573
- Dicopper complexes  
 Modelling tyrosinase monooxygenase activity. Activation of dioxygen by dicopper(I) complexes and characterisation of dicopper(II) complexes 179
- b**-Diketones  
 Copper(II) complex of 3-cinnamalidene-acetylacetone: Synthesis and characterisation 515

- Dinuclear complex  
 Exogenous bridging and nonbridging in Cu(II) complexes of Mannich base ligands: Synthesis and physical properties 559
- Dioxygen  
 Modelling tyrosinase monooxygenase activity. Activation of dioxygen by dicopper(I) complexes and characterisation of dicopper(II) complexes 179
- Displacement experiments  
 Hydrophobic interactions of phenoxazine modulators with bovine serum albumin 51
- Dissociation constants  
 Co-enzyme B<sub>12</sub> model studies: An HSAB approach to the equilibria and kinetics of axial ligation of alkyl(aquo) cobaloximes by imidazole and cyanide 579
- Divalent complexes of Cu, Ni and Co  
 Synthesis and characterization of mixed ligand complexes of bio-metals with pyrimidine nucleoside (uridine) and amino acids 593
- Doyle catalysts  
 An overview on the applications of 'Doyle catalysts' in asymmetric cyclopropanation, cyclopropanation and C-H insertion reactions 197
- EGDMA-PS supports  
 EGDMA-cross-linked polystyrene resin: An efficient support for gel-phase peptide synthesis 465
- Electrochemical studies  
 Synthesis and electrochemical studies of phenylazo substituted tetraaza macrocyclic complexes of Ni(II) 601
- Electrochemistry  
 Chemistry of azopyrimidines. Part IV. Aromatic hydroxylation in palladium(II)-arylazopyrimidines 523
- Electrode characteristics  
 Improved technology for manufacture of carbon electrodes 19
- Electron paramagnetic resonance spectra  
 Models for the active site in galactose oxidase: Structure, spectra and redox of copper(II) complexes of certain phenolate ligands 223
- Electron spin resonance  
 Copper(II) complex of 3-cinnamalidene-acetylacetone: Synthesis and characterisation 515
- Electronic spectra  
 Models for the active site in galactose oxidase: Structure, spectra and redox of copper(II) complexes of certain phenolate ligands 223
- Enzymatic  
 Co-enzyme B<sub>12</sub> model studies: An HSAB approach to the equilibria and kinetics of axial ligation of alkyl(aquo) cobaloximes by imidazole and cyanide 579
- Epitaxy  
 Synthesis of cadmium sulphide in pure and mixed Langmuir-Blodgett films of *n*-octadecylsuccinic acid 109
- Ethylation of toluene  
 Isomorphous substitution of Mn(II), Ni(II) and Zn(II) in AIPO-31 molecular sieves and study of their catalytic performance 439
- Ferrocene  
 Charge-transfer spectra of ferrocene in halocarbon solvents under photoexcitation 475
- Fluorescence anisotropy  
 Fluorescence metrology of silica sol-gels – The effect of D<sub>2</sub>O and inorganic salts 311
- Fluorescence enhancement  
 Fluorescent zinc-terpyridine complex containing coordinated peroxo counter ion in aqueous medium 459
- Fluorophenyl quinolones  
 Novel application of Wiener *vis-à-vis* Szeged indices: Antitubercular activities of quinolones 137
- Framework  
 Inorganic-organic hybrid framework solids 249
- Galactose oxidase  
 Models for the active site in galactose oxidase: Structure, spectra and redox of copper(II) complexes of certain phenolate ligands 223
- Glutathione peroxidase mimics  
 Aspects of organochalcogen (S, Se, Te) compounds stabilized by intramolecular coordination 239
- Guanidinium cyanurate  
 Hydrogen-bonded complexes of cyanuric acid with pyridine and guanidinium carbonate 607
- Halocarbon solvents  
 Charge-transfer spectra of ferrocene in halocarbon solvents under photoexcitation 475
- Halochromate(VI)  
 Kinetics and mechanism of the oxidation of formic and oxalic acids by quinolinium fluorochromate 73

- Halogen oxidation  
 Polyimido sulphur anions  $S(NR)_n^{m-}$ : Free radicals and coordination behaviour 155
- Hard and soft acids and bases  
 Co-enzyme B<sub>12</sub> model studies: An HSAB approach to the equilibria and kinetics of axial ligation of alkyl(aquo) cobaloximes by imidazole and cyanide 579
- Heme  
 Structural and functional properties of designed globins 215
- Heterocyclic thiones  
 Stereochemical trends of metal derivatives of some heterocyclic-2-thiones and thiosemicarbazones 323
- Heterodinuclear complex  
 Macrocyclic effects upon isomeric  $Cu^{II}M^{II}$  and  $M^{II}Cu^{II}$  cores. Formation with unsymmetric phenol-based macrocyclic ligands 291
- Heterometallic cluster complexes  
 Modern aspects on tri- and tetranuclear cluster complexes supported by phosphido bridges 209
- Hoechst-33258  
 Quenching of nucleotide-derived radicals by *bis*benzimidazole derivative Hoechst-33258 in aqueous solution 487
- Hybrid chalcogen ligands  
 Aspects of organochalcogen (S, Se, Te) compounds stabilized by intramolecular coordination 239
- Hybrid structures  
 Inorganic-organic hybrid framework solids 249
- Hydroformylation catalysts  
 Modern aspects on tri- and tetranuclear cluster complexes supported by phosphido bridges 209
- Hydrogen bonding  
 Si-O and P-O motifs in inorganic rings and clusters 171
- Hydrogen permeation  
 Effect of piperidones on hydrogen permeation and corrosion inhibition of mild steel in acidic solutions 127
- Hydrophobic interaction  
 Hydrophobic interactions of phenoxazine modulators with bovine serum albumin 51
- Hydrothermal treatment  
 A method for increasing the surface area of perovskite-type oxides 535
- 1-Hydroxy-pyridine-2-thione  
 Stereochemical trends of metal derivatives of some heterocyclic-2-thiones and thiosemicarbazones 323
- Impedance measurements  
 Effect of piperidones on hydrogen permeation and corrosion inhibition of mild steel in acidic solutions 127
- Instrumentation  
 An indigenous cluster beam apparatus with a reflectron time-of-flight mass spectrometer 83
- Intramolecular coordination  
 Aspects of organochalcogen (S, Se, Te) compounds stabilized by intramolecular coordination 239
- Iron phosphate-oxalate structures  
 Inorganic-organic hybrid framework solids 249
- Isomerization process  
 Modern aspects on tri- and tetranuclear cluster complexes supported by phosphido bridges 209
- Kinetics  
 Kinetics of oxidation of nickel(II) aza macrocycles by peroxydisulphate in aqueous media 507
- Knoevenagel condensate  
 Copper(II) complex of 3-cinnamalidene-acetylacetone: Synthesis and characterisation 515
- LB films  
 Synthesis of cadmium sulphide in pure and mixed Langmuir-Blodgett films of *n*-octadecylsuccinic acid 109
- LaCoO<sub>3</sub>  
 A method for increasing the surface area of perovskite-type oxides 535
- LaMnO<sub>3</sub>  
 A method for increasing the surface area of perovskite-type oxides 535
- Linear polyacenes  
 Characteristic polynomials of linear polyacenes and their subspectrality 27
- MAPO-31  
 Isomorphous substitution of Mn(II), Ni(II) and Zn(II) in AIPO-31 molecular sieves and study of their catalytic performance 439
- Macrocyclic effect  
 Macrocyclic effects upon isomeric  $Cu^{II}M^{II}$  and  $M^{II}Cu^{II}$  cores. Formation with unsymmetric phenol-based macrocyclic ligands 291
- Mass spectrometer  
 An indigenous cluster beam apparatus with a reflectron time-of-flight mass spectrometer 83

- Mean square Wiener index  
 Topological estimation of proton-ligand formation constants of potential antitumour agents: Salicylhydroxamic acids 43
- Metal chalcogenolates  
 Aspects of organochalcogen (S, Se, Te) compounds stabilized by intramolecular coordination 239
- Metal clusters  
 Si-O and P-O motifs in inorganic rings and clusters 171
- Metal complexes  
 Cobalt(III), nickel(II) and ruthenium(II) complexes of 1,10-phenanthroline family of ligands: DNA binding and photocleavage studies 1
- Metal embrittlement  
 Effect of piperidones on hydrogen permeation and corrosion inhibition of mild steel in acidic solutions 127
- Metallasiloxanes  
 Si-O and P-O motifs in inorganic rings and clusters 171
- Mixed ligand complexes  
 Synthesis and characterization of mixed ligand complexes of bio-metals with pyrimidine nucleoside (uridine) and amino acids 593
- Modelling of drug activity  
 Novel application of Wiener *vis-à-vis* Szeged indices: Antitubercular activities of quinolones 137
- Molecular sieves  
 Isomorphous substitution of Mn(II), Ni(II) and Zn(II) in AIPO-31 molecular sieves and study of their catalytic performance 439
- Molecular structure of alkyl amides  
 Density functional studies of molecular structures of N-methyl formamide, N,N-dimethyl formamide, and N,N-dimethyl acetamide 35
- Myoglobin  
 Structural and functional properties of designed globins 215
- N-Ag-N chains  
 Replacing the hydrogen in the intermolecular hydrogen bond of the cyanuric acid-bipyridyl adduct by Ag(I) 147
- N<sub>2</sub>-complex  
 Synthesis, spectroscopic, electrochemical and luminescence studies of ruthenium(II) polypyridyls containing multifunctionalized 1,2,4-triazole as co-ligand 449
- NAPO-31  
 Isomorphous substitution of Mn(II), Ni(II) and Zn(II) in AIPO-31 molecular sieves and study of their catalytic performance 439
- NMR  
 Palladium and platinum organochalcogenolates and their transformation into metal chalcogenides 187
- Ni(II) hexaazamacrocyclic  
 Kinetics of oxidation of nickel(II) aza macrocycles by peroxydisulphate in aqueous media 507
- Ni(II) pentaaza macrocycle  
 Kinetics of oxidation of nickel(II) aza macrocycles by peroxydisulphate in aqueous media 507
- Non-cyanide plating  
 Electrochemical behaviour of alkaline copper complexes 543
- Normalized Wiener index  
 Topological estimation of proton-ligand formation constants of potential antitumour agents: Salicylhydroxamic acids 43
- Nucleophilic addition to arynes  
 Generation, structure and reactivity of arynes: A theoretical study 97
- Nucleotide-derived radicals  
 Quenching of nucleotide-derived radicals by bisbenzimidazole derivative Hoechst-33258 in aqueous solution 487
- Octadecylsuccinic acid  
 Synthesis of cadmium sulphide in pure and mixed Langmuir-Blodgett films of *n*-octadecylsuccinic acid 109
- Organic acids  
 Kinetics and mechanism of the oxidation of formic and oxalic acids by quinolinium fluorochromate 73
- Organochalcogenolates  
 Palladium and platinum organochalcogenolates and their transformation into metal chalcogenides 187
- Oxidation  
 Kinetics of oxidation of nickel(II) aza macrocycles by peroxydisulphate in aqueous media 507
- Oxidation of N-alkyl anilines  
 Kinetic investigation of the oxidation of N-alkyl anilines by peroxomonophosphoric acid in anionic surfactant sodium lauryl sulphate 593
- Oxidation of acids  
 Kinetics and mechanism of the oxidation of formic and oxalic acids by quinolinium fluorochromate 73

- Oxidation of caffeine  
Oxidation of caffeine by phosphate radical anion in aqueous solution under anoxic conditions 551
- Oxygen insertion  
Chemistry of azopyrimidines. Part IV. Aromatic hydroxylation in palladium(II)-arylazopyrimidines 523
- Palladium  
Palladium and platinum organo-chalcogenolates and their transformation into metal chalcogenides 187
- Palladium(II)  
Chemistry of azopyrimidines. Part IV. Aromatic hydroxylation in palladium(II)-arylazopyrimidines 523
- Particle size  
Fluorescence metrology of silica sol-gels – The effect of D<sub>2</sub>O and inorganic salts 311
- Pascal's triangle  
Characteristic polynomials of linear polyacenes and their subspectrality 27
- Peptide models  
Density functional studies of molecular structures of N-methyl formamide, N,N-dimethyl formamide, and N,N-dimethyl acetamide 35
- Peroxomonophosphoric acid  
Kinetic investigation of the oxidation of N-alkyl anilines by peroxomonophosphoric acid in anionic surfactant sodium lauryl sulphate 615
- Peroxydiphosphate  
Oxidation of caffeine by phosphate radical anion in aqueous solution under anoxic conditions 551
- Peroxydisulphate  
Kinetics of oxidation of nickel(II) aza macrocycles by peroxydisulphate in aqueous media 507
- Petroleum coke  
Improved technology for manufacture of carbon electrodes 19
- Phase transfer catalysts  
The kinetics and mechanism of induced thermal decomposition of peroxomonosulphate by phase transfer catalysts 497
- Phenanthroline family of ligands  
Cobalt(III), nickel(II) and ruthenium(II) complexes of 1,10-phenanthroline family of ligands: DNA binding and photocleavage studies 1
- Phenoxazine  
Hydrophobic interactions of phenoxazine modulators with bovine serum albumin 51
- Phenylazo macrocyclic complex  
Synthesis and electrochemical studies of phenylazo substituted tetraaza macrocyclic complexes of Ni(II) 601
- Phosphate radical anion  
Oxidation of caffeine by phosphate radical anion in aqueous solution under anoxic conditions 551
- Phosphonates  
Si-O and P-O motifs in inorganic rings and clusters 171
- Photoexcitation  
Charge-transfer spectra of ferrocene in halocarbon solvents under photoexcitation 475
- Piperidones  
Effect of piperidones on hydrogen permeation and corrosion inhibition of mild steel in acidic solutions 127
- Platinum  
Palladium and platinum organo-chalcogenolates and their transformation into metal chalcogenides 187
- Potassium peroxomonosulphate  
The kinetics and mechanism of induced thermal decomposition of peroxomonosulphate by phase transfer catalysts 497
- Protein design  
Structural and functional properties of designed globins 215
- Pseudomonas aerogenosa*  
Copper(II) complex of 3-cinnamalidene-acetylacetone: Synthesis and characterisation 515
- Pulse radiolysis  
Quenching of nucleotide-derived radicals by bisbenzimidazole derivative Hoechst-33258 in aqueous solution 487
- Pulsed laser excitation  
Pulsed laser excitation of phosphate stabilised silver nanoparticles 63
- Pyridine-2-thione  
Stereochemical trends of metal derivatives of some heterocyclic-2-thiones and thiosemicarbazones 323
- Quantitative structure-activity relationship  
Novel application of Wiener *vis-à-vis* Szeged indices: Antitubercular activities of quinolones 137
- Quinolinium fluorochromate  
Kinetics and mechanism of the oxidation of formic and oxalic acids by quinolinium fluorochromate 73

- Rare earth  
Investigation of properties of rare earth complexes with dibromo-*p*-methyl-methyl-sulfonazo by spectral correction technique 573
- Redox behaviour  
Models for the active site in galactose oxidase: Structure, spectra and redox of copper(II) complexes of certain phenolate ligands 223
- Rhodoximes  
Co-enzyme B<sub>12</sub> model studies: An HSAB approach to the equilibria and kinetics of axial ligation of alkyl(aquo) cobaloximes by imidazole and cyanide 579
- Ruthenium (II) polypyridyls  
Synthesis, spectroscopic, electrochemical and luminescence studies of ruthenium(II) polypyridyls containing multifunctionalized 1,2,4-triazole as co-ligand 449
- Salicylhydroxamic acids  
Topological estimation of proton-ligand formation constants of potential antitumour agents: Salicylhydroxamic acids 43
- Se-N interactions  
Theoretical studies on the conformations of selenamides 623
- Selenamides  
Theoretical studies on the conformations of selenamides 623
- Selenium macrocycles  
Aspects of organochalcogen (S, Se, Te) compounds stabilized by intramolecular coordination 239
- Self-organization  
Inorganic-organic hybrid framework solids 249
- Silanols  
Si-O and P-O motifs in inorganic rings and clusters 171
- Silver nanoparticles  
Pulsed laser excitation of phosphate stabilised silver nanoparticles 63
- Single helices  
Hydrogen-bonded complexes of cyanuric acid with pyridine and guanidinium carbonate 607
- Sodium polyphosphate stabilizer  
Pulsed laser excitation of phosphate stabilised silver nanoparticles 63
- Sol-gel  
Fluorescence metrology of silica sol-gels – The effect of D<sub>2</sub>O and inorganic salts 311
- Solid-phase peptide synthesis  
EGDMA-cross-linked polystyrene resin: An efficient support for gel-phase peptide synthesis 465
- Spectral characterization  
Chemistry of azopyrimidines. Part IV. Aromatic hydroxylation in palladium(II)-arylazopyrimidines 523
- Spectral correction technique  
Investigation of properties of rare earth complexes with dibromo-*p*-methyl-methyl-sulfonazo by spectral correction technique 573
- Stoichiometric oxidation reactions  
Modelling tyrosinase monooxygenase activity. Activation of dioxygen by dicopper(I) complexes and characterisation of dicopper(II) complexes 179
- Structure and function  
Structural and functional properties of designed globins 215
- Structure-directing amine  
Inorganic-organic hybrid framework solids 249
- Subspectrality  
Characteristic polynomials of linear polyacenes and their subspectrality 27
- Sulphur nitrogen anions  
Polyimido sulphur anions S(NR)<sub>n</sub><sup>m-</sup>: Free radicals and coordination behaviour 155
- Sulphur triimide metal synthons  
Polyimido sulphur anions S(NR)<sub>n</sub><sup>m-</sup>: Free radicals and coordination behaviour 155
- Supramolecular chemistry  
Extended metal-organic solids based on benzenepolycarboxylic and aminobenzoic acids 273
- Surface plasmon band  
Pulsed laser excitation of phosphate stabilised silver nanoparticles 63
- Syneresis  
Fluorescence metrology of silica sol-gels – The effect of D<sub>2</sub>O and inorganic salts 311
- Synthetic models  
Exogenous bridging and nonbridging in Cu(II) complexes of Mannich base ligands: Synthesis and physical properties 559
- Terpyridine complexes  
Fluorescent zinc-terpyridine complex containing coordinated peroxo counter ion in aqueous medium 459
- Tertiary phosphines  
Stereochemical trends of metal derivatives of some heterocyclic-2-thiones and thiosemi-carbazones 323

- Thermal decomposition  
The kinetics and mechanism of induced thermal decomposition of peroxomonosulphate by phase transfer catalysts 497
- Thiosemicarbazones  
Stereochemical trends of metal derivatives of some heterocyclic-2-thiones and thiosemicarbazones 323
- Topological indices  
Topological estimation of proton-ligand formation constants of potential antitumour agents: Salicylhydroxamic acids 43
- Topomerization process  
Modern aspects on tri- and tetranuclear cluster complexes supported by phosphido bridges 209
- Transition state search  
Density functional studies of molecular structures of N-methyl formamide, N,N-dimethyl formamide, and N,N-dimethyl acetamide 35
- Tripodal coordination behaviour  
Polyimido sulphur anions  $S(NR)_n^{m-}$ : Free radicals and coordination behaviour 155
- Unsymmetrical ligands  
Exogenous bridging and nonbridging in Cu(II) complexes of Mannich base ligands: Synthesis and physical properties 559
- Uridine  
Synthesis and characterization of mixed ligand complexes of bio-metals with pyrimidine nucleoside (uridine) and amino acids 593
- Wiener and Szeged indices  
Novel application of Wiener *vis-à-vis* Szeged indices: Antitubercular activities of quinolones 137
- X-ray structures  
Models for the active site in galactose oxidase: Structure, spectra and redox of copper(II) complexes of certain phenolate ligands 223  
*m*-Xylyl-based dinucleating ligands  
Modelling tyrosinase monooxygenase activity. Activation of dioxygen by dicopper(I) complexes and characterisation of dicopper(II) complexes 179
- ZAPO-31  
Isomorphous substitution of Mn(II), Ni(II) and Zn(II) in AIPO-31 molecular sieves and study of their catalytic performance 439
- Zinc peroxo complex  
Fluorescent zinc-terpyridine complex containing coordinated peroxo counter ion in aqueous medium 459
