

SUBJECT INDEX

- ¹⁰Be
 Cosmogenic ¹⁰Be: A critical view on its widespread
 dominion in geosciences 181
- ⁴⁰Ar-³⁹Ar chronology
 Emplacement of Amba Dongar carbonatite-alkaline
 complex at Cretaceous Tertiary boundary: Evidence
 from ⁴⁰Ar-³⁹Ar chronology 39
- AMIP
 Response of an ocean general circulation model to wind
 and thermodynamic forcings 329
- AVHRR
 Analysis of pathfinder SST algorithm for global and
 regional conditions 395
- Absorption
 Bio-optical properties of gelbstoff in the Arabian Sea at
 the onset of the southwest monsoon 415
- Aeromagnetic
 Aeromagnetic study of peninsular India 381
- Aerosols
 Controls of dimethyl sulphide in the Bay of Bengal
 during BOBMEX-Pilot cruise 1998 279
- Aggregation
 A vertically resolved model for phytoplankton aggrega-
 tion 453
- Air-sea coupling
 Atmospheric boundary layer characteristics during the
 BOBMEX-Pilot experiment 229
- Air-sea exchange
 Controls of dimethyl sulphide in the Bay of Bengal
 during BOBMEX-Pilot cruise 1998 279
- Air-sea flux
 Surface meteorological instrumentation for BOBMEX
 221
 Inertial-Dissipation flux measurements over south Bay of
 Bengal during BOBMEX-Pilot experiment 239
- Altitude effect
 Stable isotope systematics of surface water bodies in the
 Himalayan and Trans-Himalayan (Kashmir) region 109
- Amba Dongar carbonatites
 Emplacement of Amba Dongar carbonatite-alkaline
 complex at Cretaceous/Tertiary boundary: Evidence
 from ⁴⁰Ar-³⁹Ar chronology 39
- Analytical signal
 Aeromagnetic study of peninsular India 381
- Anasagar gneiss
 Anasagar gneiss: A folded granitoid pluton in the Pro-
 tozoic South Delhi fold belt, central Rajasthan 21
- Anatexis at two PT
 Diverse signatures of deformation, pressure-temperature
 and anatexis in the Raygada sector of the Eastern Ghats
 granulite terrane 347
- Anorthosite
 Sm-Nd ages of two meta-anorthosite complexes around
 Holenarsipur: Constraints on the antiquity of Archean
 supracrustal rocks of the Dharwar craton 57
- Arabian Sea
 Physical control of primary productivity on a seasonal
 scale in the central and eastern Arabian Sea 433
 A vertically resolved model for phytoplankton aggrega-
 tion 453
 Seasonal controls on surface pCO₂ in the central and
 eastern Arabian Sea 471
- Archean
 Sm-Nd ages of two meta-anorthosite complexes around
 Holenarsipur: Constraints on the antiquity of Archean
 supracrustal rocks of the Dharwar craton 57
- Asian monsoon
 Ocean circulation in the tropical Indo-Pacific during
 early Pliocene (5.6-4.2 Ma): Paleobiogeographic and
 isotopic evidence 315
- Atlantic
 Long-term records of erosional change from marine
 ferromanganese crusts 171
- BOBMEX
 Synoptic weather conditions during the pilot study of
 Bay of Bengal and Monsoon Experiment (BOBMEX) 211
 Thermohaline structure and circulation in the upper
 layers of the southern Bay of Bengal during BOBMEX-
 Pilot (October–November 1998) 255
 Diurnal variability of upper ocean temperature and heat
 budget in the southern Bay of Bengal during October –
 November, 1998 (BOBMEX-Pilot) 267
 Controls of dimethyl sulphide in the Bay of Bengal
 during BOBMEX-Pilot cruise 1998 279
 Marine boundary layer simulation and verification during
 BOBMEX-Pilot using NCMRWF model 285
 Numerical simulation of the marine boundary layer
 characteristics over the Bay of Bengal as revealed by
 BOBMEX-98 Pilot experiment 293
- Bay of Bengal
 Bay of Bengal Monsoon Experiment (BOBMEX) – A
 component of the Indian Climate Research Programme
 (ICRP) 207
 Thermohaline structure and circulation in the upper
 layers of the southern Bay of Bengal during BOBMEX-
 Pilot (October–November 1998) 255
 Diurnal variability of upper ocean temperature and heat
 budget in the southern Bay of Bengal during October–
 November, 1998 (BOBMEX-Pilot) 267
 Controls of dimethyl sulphide in the Bay of Bengal
 during BOBMEX-Pilot cruise 1998 279
- Bio-physical model
 4D-Var data assimilation system for a coupled physical-
 biological model 491
- CZCS
 Seasonal variability of sea surface chlorophyll-a of waters
 around Sri Lanka 427

- Carbon dioxide
 Seasonal controls on surface pCO₂ in the central and eastern Arabian Sea 471
- Carbon isotope
 Effect of intraband variability on stable isotope and density time series obtained from banded corals 145
- Carbon isotope ratios
 Late Glacial and Holocene paleolimnology of two temperate lakes inferred from sediment organic δ¹³C chronology 129
- Carbon isotopes
 Climatic significance of D/H and ¹³C ¹²C ratios in Irish oak cellulose 117
 Is there a stable isotope evidence for the CO₂ fertilization effect? 141
 Palaeomonsoon and palaeoproductivity records of δ¹⁸O, δ¹³C and CaCO₃ variations in the northern Indian Ocean sediments 157
- Carbonate
 Sr isotopes in the Orgueil CI meteorite: Chronology of early solar system hydrothermal activity 187
- Cedrus deodara*
 Precipitation reconstruction using ring-width chronology of Himalayan cedar from western Himalaya: Preliminary results 339
- Chlorophyll
 Bio-optical properties of gelbstoff in the Arabian Sea at the onset of the southwest monsoon 415
- Chlorophyll-a
 Seasonal variability of sea surface chlorophyll-a of waters around Sri Lanka 427
- Chronology
 Sr isotopes in the Orgueil CI meteorite: Chronology of early solar system hydrothermal activity 187
- Climate
 Effect of intraband variability on stable isotope and density time series obtained from banded corals 145
- Climate variability
 Bay of Bengal Monsoon Experiment (BOBMEX) – A component of the Indian Climate Research Programme (ICRP) 207
- Cloud
 BOBMEX-98 Pilot: Measurement and analysis of incoming shortwave radiation data 249
- Cloud coverage
 Radiative transfer code: Application to the calculation of PAR 407
- Cocos Plate
 Compilation of radiogenic isotope data in Mexico and their petrogenetic implications 67
 Error propagation in equations for geochemical modeling of radiogenic isotopes in two-component mixing 79
- Conserved variable analysis (CVA)
 Conserved variable analysis of the marine boundary layer and air-sea exchange processes using BOBMEX-Pilot data sets 305
- Convective Boundary Layer (CBL)
 Conserved variable analysis of the marine boundary layer and air-sea exchange processes using BOBMEX-Pilot data sets 305
- Coral
 Effect of intraband variability on stable isotope and density time series obtained from banded corals 145
- Cordierite granite
 Diverse signatures of deformation, pressure-temperature and anatexis in the Rayagada sector of the Eastern Ghats granulite terrane 347
- Cosmic rays
 Cosmogenic ¹⁰Be: A critical view on its widespread dominion in geosciences 181
- Crustal evolution
 Important crustal growth in the Phanerozoic: Isotopic evidence of granitoids from east-central Asia 5
- Data assimilation
 4D-Var data assimilation system for a coupled physical-biological model 491
- Deccan Flood Basalts
 Emplacement of Amba Dongar carbonatite-alkaline complex at Cretaceous/Tertiary boundary: Evidence from ⁴⁰Ar-³⁹Ar chronology 39
- Deccan basalt
 Sr isotopic evidence on the spilitic degradation of the Deccan basalt 49
- Deglaciation
 Glacial-interglacial changes in the surface water characteristics of the Andaman Sea: Evidence from stable isotopic ratios of planktonic foraminifera 153
- Dharwar craton
 Sm-Nd ages of two meta-anorthosite complexes around Holenarsipur: Constraints on the antiquity of Archean supracrustal rocks of the Dharwar craton 57
- Dimethyl sulphide
 Controls of dimethyl sulphide in the Bay of Bengal during BOBMEX-Pilot cruise 1998 279
- ECMWF
 Response of an ocean general circulation model to wind and thermodynamic forcings 329
- East-Central Asia
 Important crustal growth in the Phanerozoic: Isotopic evidence of granitoids from east-central Asia 5
- Eastern Ghats granulites
 Diverse signatures of deformation, pressure-temperature and anatexis in the Rayagada sector of the Eastern Ghats granulite terrane 347
- Eddy diffusivity of heat
 Diurnal variability of upper ocean temperature and heat budget in the southern Bay of Bengal during October–November, 1998 (BOBMEX-Pilot) 267
- Eigenvalue
 Plain strain problem of poroelasticity using eigenvalue approach 371
- Ekman-pumping
 Physical control of primary productivity on a seasonal scale in the central and eastern Arabian Sea 433
- Element synthesis
 Conceptual problems with remote element synthesis 195
- Empirical formulae
 BOBMEX-98 Pilot: Measurement and analysis of incoming shortwave radiation data 249
- Erosion
 Long-term records of erosional change from marine ferromanganese crusts 171
- Error Propagation
 Error propagation in equations for geochemical modeling of radiogenic isotopes in two-component mixing 79
- Exhumation rates
 Diverse signatures of deformation, pressure-temperature and anatexis in the Rayagada sector of the Eastern Ghats granulite terrane 347
- Ferromanganese crusts
 Long-term records of erosional change from marine ferromanganese crusts 171
- Fertilization effect
 Is there a stable isotope evidence for the CO₂ fertilization effect? 141

- Fishery industry
 Seasonal variability of sea surface chlorophyll-*a* of waters around Sri Lanka 427
- Fluorescence
 Bio-optical properties of gelbstoff in the Arabian Sea at the onset of the southwest monsoon 415
- Flux
 Numerical simulation of the marine boundary layer characteristics over the Bay of Bengal as revealed by BOBMEX-98 Pilot experiment 293
 Seasonal controls on surface pCO₂ in the central and eastern Arabian Sea 471
- Foraminifera
 Palaeomonsoon and palaeoproductivity records of $\delta^{18}\text{O}$, $\delta^{13}\text{C}$ and CaCO₃ variations in the northern Indian Ocean sediments 157
- Gelbstoff
 Bio-optical properties of gelbstoff in the Arabian Sea at the onset of the southwest monsoon 415
- Geochemistry
 Error propagation in equations for geochemical modeling of radiogenic isotopes in two-component mixing 79
- Geochronology
 Sm-Nd ages of two meta-anorthosite complexes around Holenarsipur: Constraints on the antiquity of Archean supracrustal rocks of the Dharwar craton 57
 Cosmogenic ¹⁰Be: A critical view on its widespread dominion in geosciences 181
- Global model
 Marine boundary layer simulation and verification during BOBMEX-Pilot using NCMRWF model 285
- Granites
 Important crustal growth in the Phanerozoic: Isotopic evidence of granitoids from east-central Asia 5
- Great Barrier Reef
 Effect of intraband variability on stable isotope and density time series obtained from banded corals 145
- Groundwater
 Factors controlling the groundwater transport of U, Th, Ra, and Rn 95
- Himalaya
 Stable isotope systematics of surface water bodies in the Himalayan and Trans-Himalayan (Kashmir) region 109
- Himalayan cedar
 Precipitation reconstruction using ring-width chronology of Himalayan cedar from western Himalaya: Preliminary results 339
- Holocene
 Glacial-interglacial changes in the surface water characteristics of the Andaman Sea: Evidence from stable isotopic ratios of planktonic foraminifera 153
- Hydrogen isotopes
 Climatic significance of D/H and ¹³C/¹²C ratios in Irish oak cellulose 117
 Is there a stable isotope evidence for the CO₂ fertilization effect? 141
- Hydrothermal
 Sr isotopes in the Orgueil CI meteorite: Chronology of early solar system hydrothermal activity 187
- IGRF
 Aeromagnetic study of peninsular India 381
- India
 Precipitation reconstruction using ring-width chronology of Himalayan cedar from western Himalaya: Preliminary results 339
- Indian Monsoon Current
 Thermohaline structure and circulation in the upper layers of the southern Bay of Bengal during BOBMEX-Pilot (October–November 1998) 255
- Indian Ocean
 Long-term records of erosional change from marine ferromanganese crusts 171
 Analysis of pathfinder SST algorithm for global and regional conditions 395
- Interannual variability
 Response of an ocean general circulation model to wind and thermodynamic forcings 329
- Intercellular carbon dioxide
 Is there a stable isotope evidence for the CO₂ fertilization effect? 141
- Irish oak
 Climatic significance of D/H and ¹³C/¹²C ratios in Irish oak cellulose 117
- Isotopes
 Factors controlling the groundwater transport of U, Th, Ra, and Rn 95
 Conceptual problems with remote element synthesis 195
- Isotopic composition
 Isotopic composition of xenon in petroleum from the Shell Bullwinkle Field 89
- Isotopic ratios
 Error propagation in equations for geochemical modeling of radiogenic isotopes in two-component mixing 79
- K/T boundary
 Emplacement of Amba Dongar carbonatite-alkaline complex at Cretaceous/Tertiary boundary: Evidence from ⁴⁰Ar-³⁹Ar /chronology 39
- Lake productivity
 Late Glacial and Holocene paleolimnology of two temperate lakes inferred from sediment organic $\delta^{13}\text{C}$ chronology 129
- Lake sediments
 Late Glacial and Holocene paleolimnology of two temperate lakes inferred from sediment organic $\delta^{13}\text{C}$ chronology 129
- Laplace and Fourier transforms
 Plain strain problem of poroelasticity using eigenvalue approach 371
- Last glacial maximum (LGM)
 Glacial-interglacial changes in the surface water characteristics of the Andaman Sea: Evidence from stable isotopic ratios of planktonic foraminifera 153
- Liquid-saturated porous
 Plain strain problem of poroelasticity using eigenvalue approach 371
- Magmatic provinces
 Compilation of radiogenic isotope data in Mexico and their petrogenetic implications 67
- Marine boundary layer
 Atmospheric boundary layer characteristics during the BOBMEX-Pilot experiment 229
 Marine boundary layer simulation and verification during BOBMEX-Pilot using NCMRWF model 285
 Numerical simulation of the marine boundary layer characteristics over the Bay of Bengal as revealed by BOBMEX-98 Pilot experiment 293
- Marine boundary layer Height (MBLH)
 Conserved variable analysis of the marine boundary layer and air-sea exchange processes using BOBMEX-Pilot data sets 305

- Mass spectrometry
 Isotopic composition of xenon in petroleum from the Shell Bullwinkle Field 89
- Matchup
 Analysis of pathfinder SST algorithm for global and regional conditions 395
- Metamorphism
 Aeromagnetic study of peninsular India 381
- Meteorites
 Conceptual problems with remote element synthesis 195
- Meteorological instrument
 Surface meteorological instrumentation for BOBMEX 221
- Mexico
 Compilation of radiogenic isotope data in Mexico and their petrogenetic implications 67
 Error propagation in equations for geochemical modeling of radiogenic isotopes in two-component mixing 79
- Mixing
 Error propagation in equations for geochemical modeling of radiogenic isotopes in two-component mixing 79
 Seasonal controls on surface pCO₂ in the central and eastern Arabian Sea 471
- Model
 A vertically resolved model for phytoplankton aggregation 453
- Monsoon
 Palaeomonsoon and palaeoproductivity records of δ¹⁸O, δ¹³C and CaCO₃ variations in the northern Indian Ocean sediments 157
 Bay of Bengal Monsoon Experiment (BOBMEX) – A component of the Indian Climate Research Programme (ICRP) 207
 350 ka organic δ¹³C record of the monsoon variability on the Oman continental margin, Arabian Sea 481
- Monsoon depression
 Synoptic weather conditions during the pilot study of Bay of Bengal and Monsoon Experiment (BOBMEX) 211
- Nd and Sr isotopes
 Long-term records of erosional change from marine ferromanganese crusts 171
- Non-local closure
 Marine boundary layer simulation and verification during BOBMEX-Pilot using NCMRWF model 285
- Northeast monsoon
 Synoptic weather conditions during the pilot study of Bay of Bengal and Monsoon Experiment (BOBMEX) 211
- Nutrient transport
 Physical control of primary productivity on a seasonal scale in the central and eastern Arabian Sea 433
- Ocean circulation
 Ocean circulation in the tropical Indo-Pacific during early Pliocene (5.6-4.2 Ma): Paleobiogeographic and isotopic evidence 315
- Ocean-atmosphere coupling
 Bay of Bengal Monsoon Experiment (BOBMEX) – A component of the Indian Climate Research Programme (ICRP) 207
- Organic carbon
 Late Glacial and Holocene paleolimnology of two temperate lakes inferred from sediment organic δ¹³C chronology 129
 350 ka organic δ¹³C record of the monsoon variability on the Oman continental margin, Arabian Sea 481
- Orgueil
 Sr isotopes in the Orgueil CI meteorite: Chronology of early solar system hydrothermal activity 187
- Oxygen and carbon isotopes
 Ocean circulation in the tropical Indo-Pacific during early Pliocene (5.6-4.2 Ma): Paleobiogeographic and isotopic evidence 315
- Oxygen isotope
 Effect of intraband variability on stable isotope and density time series obtained from banded corals 145
 Palaeomonsoon and palaeoproductivity records of δ¹⁸O, δ¹³C and CaCO₃ variations in the northern Indian Ocean sediments 157
- PAR
 Radiative transfer code: Application to the calculation of PAR 407
- Pacific
 Long-term records of erosional change from marine ferromanganese crusts 171
- Pacific Ocean
 Compilation of radiogenic isotope data in Mexico and their petrogenetic implications 67
- Palaeoclimate
 Climatic significance of D/H and ¹³C/¹²C ratios in Irish oak cellulose 117
- Paleobiogeography
 Ocean circulation in the tropical Indo-Pacific during early Pliocene (5.6–4.2 Ma): Paleobiogeographic and isotopic evidence 315
- Parameter estimation
 4D-Var data assimilation system for a coupled physical-biological model 491
- Parameterisation
 Marine boundary layer simulation and verification during BOBMEX-Pilot using NCMRWF model 285
- Petroleum
 Isotopic composition of xenon in petroleum from the Shell Bullwinkle Field 89
- Phanerozoic
 Important crustal growth in the Phanerozoic: Isotopic evidence of granitoids from east-central Asia 5
- Phytoplankton
 A vertically resolved model for phytoplankton aggregation 453
- Plain strain
 Plain strain problem of poroelasticity using eigenvalue approach 371
- Planetary boundary layer
 Inertial-Dissipation flux measurements over south Bay of Bengal during BOBMEX-Pilot experiment 239
- Planets
 Conceptual problems with remote element synthesis 195
- Planktic foraminifera
 Ocean circulation in the tropical Indo-Pacific during early Pliocene (5.6-4.2 Ma): Paleobiogeographic and isotopic evidence 315
- Pleistocene
 350 ka organic δ¹³C record of the monsoon variability on the Oman continental margin, Arabian Sea 481
- Pollutants
 Factors controlling the groundwater transport of U, Th, Ra, and Rn 95
- Polyphase deformation
 Anasagar gneiss: A folded granitoid pluton in the Proterozoic South Delhi fold belt, central Rajasthan 21

- Precipitation reconstruction
 Precipitation reconstruction using ring-width chronology of Himalayan cedar from western Himalaya: Preliminary results 339
- Primary production
 Physical control of primary productivity on a seasonal scale in the central and eastern Arabian Sea 433
- Primary productivity
 Radiative transfer code: Application to the calculation of PAR 407
- Productivity
 Palaeomonsoon and palaeoproductivity records of $\delta^{18}\text{O}$, $\delta^{13}\text{C}$ and CaCO_3 variations in the northern Indian Ocean sediments 157
 Seasonal controls on surface pCO_2 in the central and eastern Arabian Sea 471
- Radiation
 BOBMEX-98 Pilot: Measurement and analysis of incoming shortwave radiation data 249
- Radiogenic isotopes
 Compilation of radiogenic isotope data in Mexico and their petrogenetic implications 67
- SST
 Effect of intraband variability on stable isotope and density time series obtained from banded corals 145
- Satellite
 Analysis of pathfinder SST algorithm for global and regional conditions 395
- Satellite imagery
 Synoptic weather conditions during the pilot study of Bay of Bengal and Monsoon Experiment (BOBMEX) 211
- Sea surface temperature
 Analysis of pathfinder SST algorithm for global and regional conditions 395
- Seasonal variability
 Seasonal variability of sea surface chlorophyll-a of waters around Sri Lanka 427
- Sediments
 Palaeomonsoon and palaeoproductivity records of $\delta^{18}\text{O}$, $\delta^{13}\text{C}$ and CaCO_3 variations in the northern Indian Ocean sediments 157
- Sm-Nd
 Sm-Nd ages of two meta-anorthosite complexes around Holenarsipur: Constraints on the antiquity of Archean supracrustal rocks of the Dharwar craton 57
- Solar system
 Conceptual problems with remote element synthesis 195
- South Delhi fold belt
 Anasagar gneiss: A folded granitoid pluton in the Proterozoic South Delhi fold belt, central Rajasthan 21
- Southern Granulite Terrain
 Aeromagnetic study of peninsular India 381
- Spilites
 Sr isotopic evidence on the spilitic degradation of the Deccan basalt 49
- Springs
 Stable isotope systematics of surface water bodies in the Himalayan and Trans-Himalayan (Kashmir) region 109
- Sr isotopes
 Sr isotopic evidence on the spilitic degradation of the Deccan basalt 49
 Sr isotopes in the Orgueil CI meteorite: Chronology of early solar system hydrothermal activity 187
- Sr, Nd, Pb
 Compilation of radiogenic isotope data in Mexico and their petrogenetic implications 67
- Sr-Nd isotopes
 Important crustal growth in the Phanerozoic: Isotopic evidence of granitoids from east-central Asia 5
- Sri Lanka
 Seasonal variability of sea surface chlorophyll-a of waters around Sri Lanka 427
- Stable carbon isotopes
 350 ka organic $\delta^{13}\text{C}$ record of the monsoon variability on the Oman continental margin, Arabian Sea 481
- Stable isotopes
 Stable isotope systematics of surface water bodies in the Himalayan and Trans-Himalayan (Kashmir) region 109
 Glacial-interglacial changes in the surface water characteristics of the Andaman Sea: Evidence from stable isotopic ratios of planktonic foraminifera 153
- Stretched-coordinate
 Response of an ocean general circulation model to wind and thermodynamic forcings 329
- Thermodynamics
 Seasonal controls on surface pCO_2 in the central and eastern Arabian Sea 471
- Thermohaline circulation
 Thermohaline structure and circulation in the upper layers of the southern Bay of Bengal during BOBMEX-Pilot (October – November 1998) 255
- Trace elements
 Factors controlling the groundwater transport of U, Th, Ra, and Rn 95
- Tree rings
 Precipitation reconstruction using ring-width chronology of Himalayan cedar from western Himalaya: Preliminary results 339
 Climatic significance of D/H and $^{13}\text{C}/^{12}\text{C}$ ratios in Irish oak cellulose 117
- Tryptophan-like
 Bio-optical properties of gelbstoff in the Arabian Sea at the onset of the southwest monsoon 415
- Turbulence
 Inertial-Dissipation flux measurements over south Bay of Bengal during BOBMEX-Pilot experiment 239
- Turbulent kinetic energy
 Numerical simulation of the marine boundary layer characteristics over the Bay of Bengal as revealed by BOBMEX-98 Pilot experiment 293
- U-Pb zircon dating
 Anasagar gneiss: A folded granitoid pluton in the Proterozoic South Delhi fold belt, central Rajasthan 21
- Upper ocean heat budget
 Diurnal variability of upper ocean temperature and heat budget in the southern Bay of Bengal during October – November, 1998 (BOBMEX-Pilot) 267
- Upwelling
 Physical control of primary productivity on a seasonal scale in the central and eastern Arabian Sea 433
- WOCE
 Response of an ocean general circulation model to wind and thermodynamic forcings 329
- Western Himalaya
 Precipitation reconstruction using ring-width chronology of Himalayan cedar from western Himalaya: Preliminary results 339

- Winter cooling
 Physical control of primary productivity on a seasonal scale in the central and eastern Arabian Sea 433
- Xenon
 Isotopic composition of xenon in petroleum from the Shell Bullwinkle Field 89
- Younger Dryas
 Glacial-interglacial changes in the surface water characteristics of the Andaman Sea: Evidence from stable isotopic ratios of planktonic foraminifera 153
- Arabian Sea
 Abundance and relationship of bacteria with transparent exopolymer particles during the 1996 summer monsoon in the Arabian Sea 443
- Bacteria
 Abundance and relationship of bacteria with transparent exopolymer particles during the 1996 summer monsoon in the Arabian Sea 443
- Carbon flux
 A coupled physical-biological-chemical model for the Indian Ocean 503
- Coupled ocean model
 A coupled physical-biological-chemical model for the Indian Ocean 503
- Indian Ocean
 A coupled physical-biological-chemical model for the Indian Ocean 503
- JGOFS
 A coupled physical-biological-chemical model for the Indian Ocean 503
- Marine productivity
 A coupled physical-biological-chemical model for the Indian Ocean 503
- Organic carbon
 Abundance and relationship of bacteria with transparent exopolymer particles during the 1996 summer monsoon in the Arabian Sea 443
- Primary production
 Abundance and relationship of bacteria with transparent exopolymer particles during the 1996 summer monsoon in the Arabian Sea 443
- TEP
 Abundance and relationship of bacteria with transparent exopolymer particles during the 1996 summer monsoon in the Arabian Sea 443
- Zooplankton
 Abundance and relationship of bacteria with transparent exopolymer particles during the 1996 summer monsoon in the Arabian Sea 443
