

SUBJECT INDEX

- Abundance
 Palaeoceanographic implications of abundance and mean proloculus diameter of benthic foraminiferal species *Epistominella exigua* in sub-surface sediments from distal Bay of Bengal fan 453
- Acceleration
 Acceleration of near-field scattering from an inhomogeneous spherical shell 401
- Active faults
 Evidence of paleoearthquakes from trench investigations along Pinjore Garden fault in Pinjore Dun, NW Himalaya 387
- Active pixel sensor
 Terrain mapping camera for Chandrayaan-1 717
- Ages
 Determination of lunar surface ages from crater frequency-size distribution 609
- Agglutinate
 Nanophase Fe⁰ in lunar soils 375
- Air pollution model
 Experimental technique of calibration of symmetrical air pollution models 565
- Amplification
 Tides in the Mandovi and Zuari estuaries, Goa, west coast of India 493
- Anisotropy
 Polarizations of quasi-waves in a general anisotropic porous solid saturated with viscous liquid 411
- Apparent resistivity
 Normalized impedance function and the straightforward inversion scheme for magnetotelluric data 523
- Artificial neural network
 A comparative study of ANN and Neuro-fuzzy for the prediction of dynamic constant of rockmass 75
- Artificial-recharge
 A GIS based hydrogeomorphic approach for identification of site-specific artificial-recharge techniques in the Deccan Volcanic Province 505
- Ascent trajectory
 Launch strategy for Indian lunar mission and precision injection to the Moon using genetic algorithm 711
- Asymmetric buckle folds
 Kinematics of large scale asymmetric folds and associated smaller scale brittle-ductile structures in the Proterozoic Somnur Formation, Pranhita-Godavari valley, south India 125
- Attenuation
 Polarizations of quasi-waves in a general anisotropic porous solid saturated with viscous liquid 411
- Barmer basin
 Mineralogy and trace element chemistry of the Siliceous Earth of Barmer basin, Rajasthan: Evidence for a volcanic origin 111
- Barren Measures Formation
 Facies pattern of the middle Permian Barren Measures Formation, Jharia basin, India: The sedimentary response to basin tectonics 287
- Barrier layer
 Hydrography of the eastern Arabian Sea during summer monsoon 2002 459
- Basin tectonics
 Pull-apart origin of the Satpura Gondwana basin, central India 259
- Basin tectonics
 Facies pattern of the middle Permian Barren Measures Formation, Jharia basin, India: The sedimentary response to basin tectonics 287
- Baspa river
 Glacial meltwater impounding: Evidence from the late Quaternary glaciogenic sediments in the Sangla valley, district Kinnaur, Himachal Pradesh, India 381
- Bengal fan
 Palaeoceanographic implications of abundance and mean proloculus diameter of benthic foraminiferal species *Epistominella exigua* in sub-surface sediments from distal Bay of Bengal fan 453
- Biogenic opal
 Biological productivity, terrigenous influence and noncrustal elements supply to the Central Indian Ocean Basin: Paleocyanography during the past ~ 1 Ma 63
- Bistatic radar
 The Clementine mission – A 10-year perspective 645
- Blind fault
 A note on 2-D lithospheric deformation due to a blind strike-slip fault 105
- Bogus vortex
 Impact of bogus vortex for track and intensity prediction of tropical cyclone 427
- Bulk
 Interrelationship between cloud cover and sensible heat flux over land during MONTBLEX-1990 421
- Calcium carbonate
 Biological productivity, terrigenous influence and noncrustal elements supply to the Central Indian Ocean Basin: Paleocyanography during the past ~ 1 Ma 63
- Carbonate silt
 Climbing ripple structure and associated storm-lamination from a Proterozoic carbonate platform succession: Their environmental and petrogenetic significance 199
- Carbonate tempestite
 Climbing ripple structure and associated storm-lamination from a Proterozoic carbonate platform

- succession: Their environmental and petrogenetic significance 199
 Cauvery Shear Zone
 Contrasting metamorphism across Cauvery Shear Zone, south India 143
 Central Indian Ocean Basin
 Biological productivity, terrigenous influence and noncrustal elements supply to the Central Indian Ocean Basin: Paleooceanography during the past ~ 1 Ma 63
 Central peak exploration
 Japanese lunar robotics exploration by co-operation with lander and rover 777
 Chandarpur Group
 Provenance, tectonics and palaeoclimate of Proterozoic Chandarpur sandstones, Chattisgarh basin: A petrographic view 227
 Chandrayaan-1
 Chandrayaan-1: Science goals 699
 High energy X- γ ray spectrometer on the Chandrayaan-1 mission to the Moon 733
 Imaging and power generation strategies for Chandrayaan-1 739
 Chang'E program
 Space operation system for Chang'E program and its capability evaluation 795
 Chang'E-1
 Scientific objectives and payloads of Chang'E-1 lunar satellite 787
 Channel geometry
 Tides in the Mandovi and Zuari estuaries, Goa, west coast of India 493
 Chattisgarh
 Provenance, tectonics and palaeoclimate of Proterozoic Chandarpur sandstones, Chattisgarh basin: A petrographic view 227
 Chattisgarh basin
 River water quality in weathered limestone: A case study in upper Mahanadi basin, India 533
 Chemical characteristics
 Seasonal variability of physico-chemical characteristics of the Haldia channel of Hooghly estuary, India 37
 Chemical composition
 Lunar science: An overview 587
 High energy X- γ ray spectrometer on the Chandrayaan-1 mission to the Moon 733
 Origin of the Earth-Moon system 593
 Chlorophyll
 Water quality assessment of Gautami-Godavari mangrove estuarine ecosystem of Andhra Pradesh, India during September 2001 185
 Circulation
 Hydrography and water masses in the southeastern Arabian Sea during March-June 2003 475
 Clay minerals
 Climatic control on clay mineral formation: Evidence from weathering profiles developed on either side of the Western Ghats 545
 Clementine
 Advances in lunar science from the Clementine mission: A decadal perspective 669
 The Clementine mission - A 10-year perspective 645
 Climate
 Climatic control on clay mineral formation: Evidence from weathering profiles developed on either side of the Western Ghats 545
 Climbing ripple-lamination
 Climbing ripple structure and associated storm-lamination from a Proterozoic carbonate platform succession: Their environmental and petrogenetic significance 199
 Combined flow bedforms
 Evidence of lacustrine sedimentation in the Upper Permian Bijori Formation, Satpura Gondwana basin: Palaeogeographic and tectonic implications 303
 Combined-flow
 Climbing ripple structure and associated storm-lamination from a Proterozoic carbonate platform succession: Their environmental and petrogenetic significance 199
 Composition
 Compositional variation and genesis of ferromanganese crusts of the Afanasiy-Nikitin Seamount, Equatorial Indian Ocean 51
 Compressive strength
 A comparative study of ANN and Neuro-fuzzy for the prediction of dynamic constant of rockmass 75
 Continental crust
 A moving boundary solution for solidification of lava lake and magma intrusion in the presence of time-varying contact temperature 169
 Controlled random search
 Analysis of optimal strategies for soft landing on the Moon from lunar parking orbits 807
 Coseismic deformation
 A note on 2-D lithospheric deformation due to a blind strike-slip fault 105
 Craters
 Determination of lunar surface ages from crater frequency-size distribution 609
 Cretaceous/Tertiary boundary
 Mineralogy and trace element chemistry of the Siliceous Earth of Barmer basin, Rajasthan: Evidence for a volcanic origin 111
 Currents
 Seasonal variability of physico-chemical characteristics of the Haldia channel of Hooghly estuary, India 37
 Deformation
 Deformation of two welded elastic half-spaces due to a long inclined tensile fault 97
 Density
 A comparative study of ANN and Neuro-fuzzy for the prediction of dynamic constant of rockmass 75
 Depositional environment
 Glacial meltwater impounding: Evidence from the late Quaternary glaciogenic sediments in the Sangla valley, district Kinnaur, Himachal Pradesh, India 381
 'Detour' lunar trajectories
 Low energy trajectories for the Moon-to-Earth space flight 613
 Detrital elements
 Biological productivity, terrigenous influence and noncrustal elements supply to the Central Indian Ocean Basin: Paleooceanography during the past ~ 1 Ma 63
 Diagenesis
 Facies, dissolution seams and stable isotope compositions of the Rohtas Limestone (Vindhyan Supergroup) in the Son valley area, central India 87

- Dielectric constants of lunar soil
 Microwave brightness temperature imaging and dielectric properties of lunar soil 627
- Digital elevation map
 Terrain mapping camera for Chandrayaan-1 717
- Dispersion coefficient
 Seasonal variability of physico-chemical characteristics of the Haldia channel of Hooghly estuary, India 37
- Dissolution seams
 Facies, dissolution seams and stable isotope compositions of the Rohtas Limestone (Vindhyan Supergroup) in the Son valley area, central India 87
- Dockum
 Depositional setting and vertebrate biostratigraphy of the Triassic Dockum Group of Texas 325
- DVP
 A GIS based hydrogeomorphic approach for identification of site-specific artificial-recharge techniques in the Deccan Volcanic Province 505
- Dyke injection
 Deformation of two welded elastic half-spaces due to a long inclined tensile fault 97
- Eddy
 Interrelationship between cloud cover and sensible heat flux over land during MONTBLEX-1990 421
- Electric power
 Energy conversion evolution at lunar polar sites 633
- Energetic Neutral Atom (ENA)
 Low energy neutral atom imaging on the Moon with the SARA instrument aboard Chandrayaan-1 mission 749
- Energy generation
 Energy conversion evolution at lunar polar sites 633
- Epistominella exigua*
 Palaeoceanographic implications of abundance and mean proloculus diameter of benthic foraminiferal species *Epistominella exigua* in sub-surface sediments from distal Bay of Bengal fan 453
- EPS
 Organotemplate structures in sedimentary manganese carbonates of the Neoproterozoic Penganga Group, Adilabad, India 247
- Equatorial Indian Ocean
 Compositional variation and genesis of ferromanganese crusts of the Afanasiy-Nikitin Seamount, Equatorial Indian Ocean 51
- Escape
 Low energy trajectories for the Moon-to-Earth space flight 613
- Escape rate
 Escape of atmospheric gases from the Moon 637
- Estuarine point bar
 Sedimentary structures of tidal flats: A journey from coast to inner estuarine region of eastern India 353
- Estuary
 Water quality assessment of Gautami-Godavari mangrove estuarine ecosystem of Andhra Pradesh, India during September 2001 185
- Facies analysis
 Evidence of lacustrine sedimentation in the Upper Permian Bijori Formation, Satpura Gondwana basin: Palaeogeographic and tectonic implications 303
- Facies pattern
 Facies pattern of the middle Permian Barren Measures Formation, Jharia basin, India: The sedimentary response to basin tectonics 287
- Ferromanganese crusts
 Compositional variation and genesis of ferromanganese crusts of the Afanasiy-Nikitin Seamount, Equatorial Indian Ocean 51
- Fluvio-lacustrine
 Significance of transition between Talchir Formation and Karharbari Formation in Lower Gondwana basin evolution – A study in West Bokaro Coal basin, Jharkhand, India 275
- Framboid
 Nannobacteria and the formation of framboidal pyrite: Textural evidence 369
- Gamma-ray spectrometry
 Scientific objectives and payloads of Chang'E-1 lunar satellite 787
- Genetic algorithm
 Launch strategy for Indian lunar mission and precision injection to the Moon using genetic algorithm 711
- Geoelectrical methods
 Identification of groundwater prospective zones by using remote sensing and geoelectrical methods in Jharia and Raniganj coalfields, Dhanbad district, Jharkhand state 515
- Geomagnetic storms
 Geomagnetic activity control on VHF scintillations over an Indian low latitude station, Waltair (17.7°N, 83.3°E, 20°N dip) 437
- Geothermobarometry
 Contrasting metamorphism across Cauvery Shear Zone, south India 143
- GIS
 A GIS based hydrogeomorphic approach for identification of site-specific artificial-recharge techniques in the Deccan Volcanic Province 505
- Glaciogenic sediments
 Glacial meltwater impounding: Evidence from the late Quaternary glaciogenic sediments in the Sangla valley, district Kinnaur, Himachal Pradesh, India 381
- Glacio-isostasy
 Significance of transition between Talchir Formation and Karharbari Formation in Lower Gondwana basin evolution – A study in West Bokaro Coal basin, Jharkhand, India 275
- Glacio-marine sediments
 Significance of transition between Talchir Formation and Karharbari Formation in Lower Gondwana basin evolution – A study in West Bokaro Coal basin, Jharkhand, India 275
- Gondwana Supergroup
 Significance of transition between Talchir Formation and Karharbari Formation in Lower Gondwana basin evolution – A study in West Bokaro Coal basin, Jharkhand, India 275
- Gondwanaland
 Contrasting metamorphism across Cauvery Shear Zone, south India 143
- Granulites
 Contrasting metamorphism across Cauvery Shear Zone, south India 143

- Gravitational perturbations
 Low energy trajectories for the Moon-to-Earth space flight 613
- Groundwater
 Identification of groundwater prospective zones by using remote sensing and geoelectrical methods in Jharia and Raniganj coalfields, Dhanbad district, Jharkhand state 515
- Haldia channel
 Seasonal variability of physico-chemical characteristics of the Haldia channel of Hooghly estuary, India 37
- Hardness
 A comparative study of ANN and Neuro-fuzzy for the prediction of dynamic constant of rockmass 75
- Harmonic analysis
 Tides in the Mandovi and Zuari estuaries, Goa, west coast of India 493
- Heat flow
 Lunar-A mission: Outline and current status 761
- Helium
 Escape of atmospheric gases from the Moon 637
- High energy X-rays
 High energy X- γ ray spectrometer on the Chandrayaan-1 mission to the Moon 733
- Himachal Pradesh
 Glacial meltwater impounding: Evidence from the late Quaternary glaciogenic sediments in the Sangla valley, district Kinnaur, Himachal Pradesh, India 381
- Himalaya
 Evidence of paleoearthquakes from trench investigations along Pinjore Garden fault in Pinjore Dun, NW Himalaya 387
- Hooghly estuary
 Seasonal variability of physico-chemical characteristics of the Haldia channel of Hooghly estuary, India 37
- Hummocky cross-stratification
 Climbing ripple structure and associated storm-lamination from a Proterozoic carbonate platform succession: Their environmental and petrogenetic significance 199
- Hybrid symplectic integrator
 Capture of interplanetary bodies in geocentric orbits and early lunar evolution 601
- Hydrogeology
 A GIS based hydrogeomorphic approach for identification of site-specific artificial-recharge techniques in the Deccan Volcanic Province 505
- Hydromorphic soil
 Evidence of lacustrine sedimentation in the Upper Permian Bijori Formation, Satpura Gondwana basin: Palaeogeographic and tectonic implications 303
- Hyper-Spectral Imager
 Hyper-Spectral Imager in visible and near-infrared band for lunar compositional mapping 721
- Imaging payloads
 SMART-1 after lunar capture: First results and perspectives 687
 Chandrayaan-1: Science goals 699
- India
 Organotemplate structures in sedimentary manganese carbonates of the Neoproterozoic Penganga Group, Adilabad, India 247
- INDOEX
 Development and propagation of a pollution gradient in the marine boundary layer during INDOEX (1999) 3
- Inhomogeneity
 Acceleration of near-field scattering from an inhomogeneous spherical shell 401
- Interplanetary magnetic field
 IMF B $_y$ dependence of the extent of substorm westward electrojet 177
- IOP
 Interrelationship between cloud cover and sensible heat flux over land during MONTBLEX-1990 421
- Isotopic fractionation
 Origin of the Earth-Moon system 593
- Jharia basin
 Facies pattern of the middle Permian Barren Measures Formation, Jharia basin, India: The sedimentary response to basin tectonics 287
- Kansapathar Sandstone
 Tidal shelf sedimentation in the Neoproterozoic Chattisgarh succession of central India 211
- Kinematic history
 Kinematics of large scale asymmetric folds and associated smaller scale brittle-ductile structures in the Proterozoic Somnur Formation, Pranhita-Godavari valley, south India 125
- Kinetic energy
 Energetics of lower tropospheric planetary waves over mid latitudes: Precursor for Indian summer monsoon 557
- Kinnaur district
 Glacial meltwater impounding: Evidence from the late Quaternary glaciogenic sediments in the Sangla valley, district Kinnaur, Himachal Pradesh, India 381
- Lander and rover co-operation
 Japanese lunar robotics exploration by co-operation with lander and rover 777
- Laser altimeter
 Lunar ranging instrument for Chandrayaan-1 725
- Late heavy bombardment
 Lunar science: An overview 587
- Late Quaternary
 Glacial meltwater impounding: Evidence from the late Quaternary glaciogenic sediments in the Sangla valley, district Kinnaur, Himachal Pradesh, India 381
 Changes in the source and transport mechanism of terrigenous input to the Indian sector of Southern Ocean during the late Quaternary and its palaeoceanographic implications 443
- Limestone weathering
 River water quality in weathered limestone: A case study in upper Mahanadi basin, India 533
- Lineament
 Identification of groundwater prospective zones by using remote sensing and geoelectrical methods in Jharia and Raniganj coalfields, Dhanbad district, Jharkhand state 515
- Long tensile fault
 Deformation of two welded elastic half-spaces due to a long inclined tensile fault 97

- Low pressure system
Some characteristics of very heavy rainfall over Orissa during summer monsoon season 17
- Luna-Gondwana
Facies pattern of the middle Permian Barren Measures Formation, Jharia basin, India: The sedimentary response to basin tectonics 287
Evidence of lacustrine sedimentation in the Upper Permian Bijori Formation, Satpura Gondwana basin: Palaeogeographic and tectonic implications 303
- Luna-Glob mission
Luna-Glob project in the context of the past and present lunar exploration in Russia 801
- Lunar atmosphere
Escape of atmospheric gases from the Moon 637
- Lunar basins
Determination of lunar surface ages from crater frequency-size distribution 609
- Lunar core
Luna-Glob project in the context of the past and present lunar exploration in Russia 801
- Lunar elemental composition
Low energy neutral atom imaging on the Moon with the SARA instrument aboard Chandrayaan-1 mission 749
- Lunar environment
Energy conversion evolution at lunar polar sites 633
- Lunar exploration
Lunar-A mission: Outline and current status 761
SELENE project status 769
Scientific objectives and payloads of Chang'E-1 lunar satellite 787
Space operation system for Chang'E program and its capability evaluation 795
- Lunar exploration development
Telerobotic exploration and development of the Moon 815
- Lunar gravity model
An analysis of near-circular lunar mapping orbits 619
- Lunar imaging
Imaging and power generation strategies for Chandrayaan-1 739
SELENE project status 769
- Lunar interior
Lunar-A mission: Outline and current status 761
- Lunar magnetic anomalies
Low energy neutral atom imaging on the Moon with the SARA instrument aboard Chandrayaan-1 mission 749
- Lunar mapping
An analysis of near-circular lunar mapping orbits 619
- Lunar parking orbit
Analysis of optimal strategies for soft landing on the Moon from lunar parking orbits 807
- Lunar robotics exploration
Japanese lunar robotics exploration by co-operation with lander and rover 777
- Lunar seismology
Lunar-A mission: Outline and current status 761
- Lunar surface mineralogy
Advances in lunar science from the Clementine mission: A decadal perspective 669
- Lunar topography
Terrain mapping camera for Chandrayaan-1 717
- Lunar transfer trajectory
Launch strategy for Indian lunar mission and precision injection to the Moon using genetic algorithm 711
- Lunar-A
Lunar-A mission: Outline and current status 761
- Macrotidal
Tidal shelf sedimentation in the Neoproterozoic Chattisgarh succession of central India 211
- Magma ocean
Lunar science: An overview 587
- Magnetic susceptibility
Changes in the source and transport mechanism of terrigenous input to the Indian sector of Southern Ocean during the late Quaternary and its palaeo-oceanographic implications 443
- Magnetotelluric
Normalized impedance function and the straightforward inversion scheme for magnetotelluric data 523
- Manganese carbonate
Organotemplate structures in sedimentary manganese carbonates of the Neoproterozoic Penganga Group, Adilabad, India 247
- Mangrove
Water quality assessment of Gautami-Godavari mangrove estuarine ecosystem of Andhra Pradesh, India during September 2001 185
- Marine boundary layer
Development and propagation of a pollution gradient in the marine boundary layer during INDOEX (1999) 3
- Mass diffusion
Reflection of P and SV waves from free surface of an elastic solid with generalized thermodiffusion 159
- Maximum Dst excursion
Geomagnetic activity control on VHF scintillations over an Indian low latitude station, Waltair (17.7°N, 83.3°E, 20°N dip) 437
- Mean proloculus diameter
Palaeoceanographic implications of abundance and mean proloculus diameter of benthic foraminiferal species *Epistominella exigua* in sub-surface sediments from distal Bay of Bengal fan 453
- Micro manipulator
Japanese lunar robotics exploration by co-operation with lander and rover 777
- Micro rover
Japanese lunar robotics exploration by co-operation with lander and rover 777
- Microbial
Organotemplate structures in sedimentary manganese carbonates of the Neoproterozoic Penganga Group, Adilabad, India 247
- Micrometeorite impact
Nanophase Fe⁰ in lunar soils 375
- Micrometeorites
Mineralogy and trace element chemistry of the Siliceous Earth of Barmer basin, Rajasthan: Evidence for a volcanic origin 111
- Microwave brightness temperature
Microwave brightness temperature imaging and dielectric properties of lunar soil 627
- Microwave radiometer
Microwave brightness temperature imaging and dielectric properties of lunar soil 627

- Scientific objectives and payloads of Chang'E-1 lunar satellite 787
- Mineral mapping
Hyper-Spectral Imager in visible and near-infrared band for lunar compositional mapping 721
The Clementine mission – A 10-year perspective 645
- Mineralogy
SMART-1 after lunar capture: First results and perspectives 687
Chandrayaan-1: Science goals 699
- MM5
Impact of bogus vortex for track and intensity prediction of tropical cyclone 427
- Momentum transport
Energetics of lower tropospheric planetary waves over mid latitudes: Precursor for Indian summer monsoon 557
- Monsoon
Some characteristics of very heavy rainfall over Orissa during summer monsoon season 17
Palaeoceanographic implications of abundance and mean proloculus diameter of benthic foraminiferal species *Epistominella exigua* in sub-surface sediments from distal Bay of Bengal fan 453
Hydrography and water masses in the southeastern Arabian Sea during March–June 2003 475
- Monsoon effects
Sedimentary structures of tidal flats: A journey from coast to inner estuarine region of eastern India 353
- Moon
Nanophase Fe⁰ in lunar soils 375
Low energy neutral atom imaging on the Moon with the SARA instrument aboard Chandrayaan-1 mission 749
The Clementine mission – A 10-year perspective 645
- Moon mapping
Imaging and power generation strategies for Chandrayaan-1 739
- Moon–Earth flight
Low energy trajectories for the Moon-to-Earth space flight 613
- Moonlets
Capture of interplanetary bodies in geocentric orbits and early lunar evolution 601
- Moon–solar wind interaction
Low energy neutral atom imaging on the Moon with the SARA instrument aboard Chandrayaan-1 mission 749
- Moving boundary problem
A moving boundary solution for solidification of lava lake and magma intrusion in the presence of time-varying contact temperature 169
- Multispectral imaging
Advances in lunar science from the Clementine mission: A decadal perspective 669
- Nannobacteria
Nannobacteria and the formation of framboidal pyrite: Textural evidence 369
- Nd:YAG laser
Lunar ranging instrument for Chandrayaan-1 725
- Near-field
Acceleration of near-field scattering from an inhomogeneous spherical shell 401
- Neoproterozoic
Tidal shelf sedimentation in the Neoproterozoic Chattisgarh succession of central India 211
Organotemplate structures in sedimentary manganese carbonates of the Neoproterozoic Penganga Group, Adilabad, India 247
- Neuro-fuzzy
A comparative study of ANN and Neuro-fuzzy for the prediction of dynamic constant of rockmass 75
- Non-uniform solidification
A moving boundary solution for solidification of lava lake and magma intrusion in the presence of time-varying contact temperature 169
- Northeast monsoon
Development and propagation of a pollution gradient in the marine boundary layer during INDOEX (1999) 3
- Nutrient
Water quality assessment of Gautami–Godavari mangrove estuarine ecosystem of Andhra Pradesh, India during September 2001 185
- Open sea tidal flats
Sedimentary structures of tidal flats: A journey from coast to inner estuarine region of eastern India 353
- Orbit life time
An analysis of near-circular lunar mapping orbits 619
- Orbit maintenance
An analysis of near-circular lunar mapping orbits 619
- Organic carbon
Biological productivity, terrigenous influence and noncrustal elements supply to the Central Indian Ocean Basin: Palaeoceanography during the past ~ 1 Ma 63
- Organotemplate
Organotemplate structures in sedimentary manganese carbonates of the Neoproterozoic Penganga Group, Adilabad, India 247
- Origin of Moon
Lunar science: An overview 587
Origin of the Earth–Moon system 593
- Orissa
Some characteristics of very heavy rainfall over Orissa during summer monsoon season 17
- Orography
Some characteristics of very heavy rainfall over Orissa during summer monsoon season 17
- p*-wave velocity
A comparative study of ANN and Neuro-fuzzy for the prediction of dynamic constant of rockmass 75
- Palaeoclimate
Provenance, tectonics and palaeoclimate of Proterozoic Chandrapur sandstones, Chattisgarh basin: A petrographic view 227
- Paleoearthquakes
Evidence of paleoearthquakes from trench investigations along Pinjore Garden fault in Pinjore Dun, NW Himalaya 387
- Parking orbit
Launch strategy for Indian lunar mission and precision injection to the Moon using genetic algorithm 711
- Penetrator
Lunar-A mission: Outline and current status 761

- Penetrators
Luna-Glob project in the context of the past and present lunar exploration in Russia 801
- Penganga Group
Organotemplate structures in sedimentary manganese carbonates of the Neoproterozoic Penganga Group, Adilabad, India 247
- Persian Gulf Water
Hydrography of the eastern Arabian Sea during summer monsoon 2002 459
- Physical characteristics
Seasonal variability of physico-chemical characteristics of the Haldia channel of Hooghly estuary, India 37
- Phytoplankton
Water quality assessment of Gautami-Godavari mangrove estuarine ecosystem of Andhra Pradesh, India during September 2001 185
- Pinjore
Evidence of paleoearthquakes from trench investigations along Pinjore Garden fault in Pinjore Dun, NW Himalaya 387
- Planetary exploration technology
SMART-1 after lunar capture: First results and perspectives 687
- Planetary formation
Capture of interplanetary bodies in geocentric orbits and early lunar evolution 601
- Planetesimals
Capture of interplanetary bodies in geocentric orbits and early lunar evolution 601
- Planetoids
Capture of interplanetary bodies in geocentric orbits and early lunar evolution 601
- Polar deposits
The Clementine mission – A 10-year perspective 645
- Polarisation
Polarisations of quasi-waves in a general anisotropic porous solid saturated with viscous liquid 411
- Pollution gradient
Development and propagation of a pollution gradient in the marine boundary layer during INDOEX (1999) 3
- Pontryagin's maximum principle
Analysis of optimal strategies for soft landing on the Moon from lunar parking orbits 807
- Poroelasticity
Polarisations of quasi-waves in a general anisotropic porous solid saturated with viscous liquid 411
- Power generation
Imaging and power generation strategies for Chandrayaan-1 739
- Predictions
Experimental technique of calibration of symmetrical air pollution models 565
- Profile
Interrelationship between cloud cover and sensible heat flux over land during MONTBLEX-1990 421
- Proterozoic Somnur Formation
Kinematics of large scale asymmetric folds and associated smaller scale brittle-ductile structures in the Proterozoic Somnur Formation, Pranhita-Godavari valley, south India 125
- Provenance
Provenance, tectonics and palaeoclimate of Proterozoic Chandrapur sandstones, Chattisgarh basin: A petrographic view 227
- Pyrite
Nannobacteria and the formation of framboidal pyrite: Textural evidence 369
- Radioactivity
Escape of atmospheric gases from the Moon 637
Chandrayaan-1: Science goals 699
- Radon
Chandrayaan-1: Science goals 699
- Receptors layout
Experimental technique of calibration of symmetrical air pollution models 565
- Red Sea Water
Hydrography of the eastern Arabian Sea during summer monsoon 2002 459
- Reflection
Reflection of P and SV waves from free surface of an elastic solid with generalized thermodiffusion 159
- Reflection coefficients
Reflection of P and SV waves from free surface of an elastic solid with generalized thermodiffusion 159
- Regolith
Nanophase Fe⁰ in lunar soils 375
- Remote sensing
Identification of groundwater prospective zones by using remote sensing and geoelectrical methods in Jharia and Raniganj coalfields, Dhanbad district, Jharkhand state 515
Advances in lunar science from the Clementine mission: A decadal perspective 669
- Resistivity
Identification of groundwater prospective zones by using remote sensing and geoelectrical methods in Jharia and Raniganj coalfields, Dhanbad district, Jharkhand state 515
- Ring current
IMF B_Y dependence of the extent of substorm westward electrojet 177
- River water quality modeling
River water quality in weathered limestone: A case study in upper Mahanadi basin, India 533
- Rock-water interaction
River water quality in weathered limestone: A case study in upper Mahanadi basin, India 533
- Rohtas Limestone
Facies, dissolution seams and stable isotope compositions of the Rohtas Limestone (Vindhyan Supergroup) in the Son valley area, central India 87
- Sandstones
Provenance, tectonics and palaeoclimate of Proterozoic Chandrapur sandstones, Chattisgarh basin: A petrographic view 227
- SAPMI
Experimental technique of calibration of symmetrical air pollution models 565
- Satpura basin
Evidence of lacustrine sedimentation in the Upper Permian Bijori Formation, Satpura Gondwana basin: Palaeogeographic and tectonic implications 303
- Scattering
Acceleration of near-field scattering from an inhomogeneous spherical shell 401
- Seamount
Compositional variation and genesis of ferromanganese crusts of the Afanasy-Nikitin Seamount, Equatorial Indian Ocean 51

- Sediment
 Biological productivity, terrigenous influence and oceanic elements supply to the Central Indian Ocean Basin: Paleooceanography during the past ~ 1 Ma 63
- Sedimentary structures
 Sedimentary structures of tidal flats: A journey from coast to inner estuarine region of eastern India 353
- Sedimentology
 Depositional setting and vertebrate biostratigraphy of the Triassic Dockum Group of Texas 325
- Seismology
 Luna-Glob project in the context of the past and present lunar exploration in Russia 801
- SELENE
 SELENE project status 769
- SEM
 Nanophase Fe⁰ in lunar soils 375
- Shelf sedimentation
 Tidal shelf sedimentation in the Neoproterozoic Chattisgarh succession of central India 211
- SHF
 Interrelationship between cloud cover and sensible heat flux over land during MONTBLEX-1990 421
- Si APD
 Lunar ranging instrument for Chandrayaan-1 725
- Siliceous Earth
 Mineralogy and trace element chemistry of the Siliceous Earth of Barmer basin, Rajasthan: Evidence for a volcanic origin 111
- SMART-1
 SMART-1 after lunar capture: First results and perspectives 687
- Soft landing
 Analysis of optimal strategies for soft landing on the Moon from lunar parking orbits 807
- Solar energy
 Energy conversion evolution at lunar polar sites 633
- South India
 Contrasting metamorphism across Cauvery Shear Zone, south India 143
- Southern Ocean
 Changes in the source and transport mechanism of terrigenous input to the Indian sector of Southern Ocean during the late Quaternary and its palaeo-oceanographic implications 443
- Space operations
 Space operation system for Chang'E program and its capability evaluation 795
- Spectral bands
 Hyper-Spectral Imager in visible and near-infrared band for lunar compositional mapping 721
- Spherical harmonics
 An analysis of near-circular lunar mapping orbits 619
- Stable isotopes
 Facies, dissolution seams and stable isotope compositions of the Rohtas Limestone (Vindhyan Supergroup) in the Son valley area, central India 87
- Step-over
 Pull-apart origin of the Satpura Gondwana basin, central India 259
- Straightforward inversion
 Normalized impedance function and the straightforward inversion scheme for magnetotelluric data 523
- Strike-slip basin
 Pull-apart origin of the Satpura Gondwana basin, central India 259
- Strike-slip fault
 A note on 2-D lithospheric deformation due to a blind strike-slip fault 105
- Subsidence
 Pull-apart origin of the Satpura Gondwana basin, central India 259
- Substrom
 IMF B_y dependence of the extent of substorm westward electrojet 177
- Surface composition
 SMART-1 after lunar capture: First results and perspectives 687
 Chandrayaan-1: Science goals 699
- Talchir Formation
 Significance of transition between Talchir Formation and Karharbari Formation in Lower Gondwana basin evolution – A study in West Bokaro Coal basin, Jharkhand, India 275
- Targeting
 Launch strategy for Indian lunar mission and precision injection to the Moon using genetic algorithm 711
- TCC
 Interrelationship between cloud cover and sensible heat flux over land during MONTBLEX-1990 421
- Tectonics
 Provenance, tectonics and palaeoclimate of Proterozoic Chandrapur sandstones, Chattisgarh basin: A petrographic view 227
 Identification of groundwater prospective zones by using remote sensing and geoelectrical methods in Jharia and Raniganj coalfields, Dhanbad district, Jharkhand state 515
- Telerobotics
 Telerobotic exploration and development of the Moon 815
- Terrain mapping
 Terrain mapping camera for Chandrayaan-1 717
- Terrigenous flux
 Changes in the source and transport mechanism of terrigenous input to the Indian sector of Southern Ocean during the late Quaternary and its palaeo-oceanographic implications 443
- Texas
 Depositional setting and vertebrate biostratigraphy of the Triassic Dockum Group of Texas 325
- Thermodiffusion
 Reflection of P and SV waves from free surface of an elastic solid with generalized thermodiffusion 159
- Thermoelasticity
 Reflection of P and SV waves from free surface of an elastic solid with generalized thermodiffusion 159
- Thorium distribution on Moon
 High energy X- γ ray spectrometer on the Chandrayaan-1 mission to the Moon 733
- Thrust related folding
 Kinematics of large scale asymmetric folds and associated smaller scale brittle-ductile structures in the Proterozoic Somnur Formation, Pranhita-Godavari valley, south India 125
- Tidal constituents
 Tides in the Mandovi and Zuari estuaries, Goa, west coast of India 493

- Tide-pole
Tides in the Mandovi and Zuari estuaries, Goa, west coast of India 493
- Time series
Hydrography of the eastern Arabian Sea during summer monsoon 2002 459
- Time-varying contact temperature
A moving boundary solution for solidification of lava lake and magma intrusion in the presence of time-varying contact temperature 169
- Transcurrent zone
Pull-apart origin of the Satpura Gondwana basin, central India 259
- Translunar injection
Launch strategy for Indian lunar mission and precision injection to the Moon using genetic algorithm 711
- Trench
Evidence of paleoearthquakes from trench investigations along Pinjore Garden fault in Pinjore Dun, NW Himalaya 387
- Triassic
Depositional setting and vertebrate biostratigraphy of the Triassic Dockum Group of Texas 325
- Tropical cyclone
Impact of bogus vortex for track and intensity prediction of tropical cyclone 427
- TT&C design
Space operation system for Chang'E program and its capability evaluation 795
- Two-dimensional
A note on 2-D lithospheric deformation due to a blind strike-slip fault 105
- Two-point boundary value problem
Analysis of optimal strategies for soft landing on the Moon from lunar parking orbits 807
- Upwelling
Hydrography and water masses in the southeastern Arabian Sea during March–June 2003 475
- Validation
Experimental technique of calibration of symmetrical air pollution models 565
- Vapor deposit
Nanophase Fe⁰ in lunar soils 375
- Vertebrate biostratigraphy
Depositional setting and vertebrate biostratigraphy of the Triassic Dockum Group of Texas 325
- Very heavy rainfall
Some characteristics of very heavy rainfall over Orissa during summer monsoon season 17
- VHF scintillations
Geomagnetic activity control on VHF scintillations over an Indian low latitude station, Waltair (17.7°N, 83.3°E, 20°N dip) 437
- Volatile depletion
Origin of the Earth–Moon system 593
- Volatile transport
High energy X- γ ray spectrometer on the Chandrayaan-1 mission to the Moon 733
- Volcanic ash
Mineralogy and trace element chemistry of the Siliceous Earth of Barmer basin, Rajasthan: Evidence for a volcanic origin 111
- Volcanic source
Deformation of two welded elastic half-spaces due to a long inclined tensile fault 97
- Warm pool
Hydrography and water masses in the southeastern Arabian Sea during March–June 2003 475
- Water masses
Hydrography of the eastern Arabian Sea during summer monsoon 2002 459
- Water quality
Water quality assessment of Gautami–Godavari mangrove estuarine ecosystem of Andhra Pradesh, India during September 2001 185
- Weathering
Climatic control on clay mineral formation: Evidence from weathering profiles developed on either side of the Western Ghats 545
- Wedge filter
Hyper-Spectral Imager in visible and near-infrared band for lunar compositional mapping 721
- Welded half-spaces
Deformation of two welded elastic half-spaces due to a long inclined tensile fault 97
- Western Ghats
Climatic control on clay mineral formation: Evidence from weathering profiles developed on either side of the Western Ghats 545
- Westward auroral electrojet
IMF B_y dependence of the extent of substorm westward electrojet 177
- X-ray spectrometry
Scientific objectives and payloads of Chang'E-1 lunar satellite 787
- XRD
Climatic control on clay mineral formation: Evidence from weathering profiles developed on either side of the Western Ghats 545
- Zonal waves
Energetics of lower tropospheric planetary waves over mid latitudes: Precursor for Indian summer monsoon 557
