

Journal of Genetics, Volume 84, 2005

SUBJECT INDEX

- acclimatization
Acclimatization to high temperatures in inbred and outbred *Drosophila subobscura* (*J. Genet.* classic, 1956) 37
- ACGT element
Effect of copy number and spacing of the ACGT and GT *cis* elements on transient expression of minimal promoter in plants (Research note) 183
- adaptive plasticity
Inbreeding and sex: canalization, plasticity and sexual selection (Commentary on *J. Genet.* classic) 13
Acclimatization to high temperatures in inbred and outbred *Drosophila subobscura* (*J. Genet.* classic, 1956) 37
- admixture mapping
A family tree in every gene (Invited editorial) 3
- ageing
Fruitflies and the fountain of youth (Book review: *Methuselah flies: a case study in the evolution of aging*, edited by Michel R Rose and others) 347
- alcoholism
Dissecting the correlation structure of a bivariate phenotype: common genes or shared environment? 143
Detection of new single nucleotide polymorphisms by means of real time PCR (Research note) 341
- amplified fragment length polymorphism
AFLP fingerprinting analysis of some cultivated varieties of sea buckthorn (*Hippophae rhamnoides*) (Research note) 311
- anthropology
A family tree in every gene (Invited editorial) 3
- Antirrhinum*
Orchid flower evolution (Research note) 81
- Arabidopsis thaliana*
Comparative studies on codon usage pattern of chloroplasts and their host nuclear genes in four plant species 55
Comparative studies on sequence characteristics around translation initiation codon in four eukaryotes (Research note) 317
- autosomal mutations
Chromosomal localization of autosomal mutations in *Drosophila nasuta nasuta* and *Drosophila nasuta albomicans* (Research note) 73
- B-chromosomes
Cytogenetic studies in some species of *Bromus* L., section *Genea* Dum. (Research note) 189
- balancing selection
Homogeneity of common cosmopolitan inversion frequencies in Southeast Asian *Drosophila melanogaster* 173
- behaviour genetics
Behaviour genetics of *Drosophila*: Non-sexual behaviour (Review article) 195
- bioinformatics
Exact Tandem Repeats Analyzer (E-TRA): A new program for DNA sequence mining 49
Comparative studies on codon usage pattern of chloroplasts and their host nuclear genes in four plant species 55
- bivariate phenotype
Dissecting the correlation structure of a bivariate phenotype: common genes or shared environment? 143
- body colouration
Digenic control of colouration in the two-spot gourami *Trichogaster trichopterus trichopterus* (Research note) 179
- body size
Coexistence of three different *Drosophila* species by rescheduling their life history traits in a natural population 283
REML estimates of genetic parameters of sexual dimorphism for wing and thorax length in *Drosophila melanogaster* (Erratum) 94
- Bombyx mandarina*
Molecular phylogeny of the domesticated silkworm, *Bombyx mori*, based on the sequences of mitochondrial *cytochrome b* genes 137
- Bombyx mori*
Molecular phylogeny of the domesticated silkworm, *Bombyx mori*, based on the sequences of mitochondrial *cytochrome b* genes 137
- book review
Fruitflies and the fountain of youth (Book review: *Methuselah flies: a case study in the evolution of aging*, edited by Michael R. Rose and others) 347
- bottleneck
Genetic diversity and bottleneck studies in the Marwari horse breed 295
- brachydactyly
Brachydactyly A1: New relatives for old families? (Commentary on *J. Genet.* classic) 95
A second brachydactylous family (*J. Genet.* classic, 1915) 99
- Brassica*
Marker-aided genetic divergence analysis in *Brassica* 123
- BRCA1* gene (human)
Mutational analysis of the *BRCA1* gene in 30 Czech ovarian cancer patients 63
- breast cancer
Mutational analysis of the *BRCA1* gene in 30 Czech ovarian cancer patients 63
- Bromus*
Cytogenetic studies in some species of *Bromus* L., section *Genea* Dum. (Research note) 189
- C282Y
Coincident natural selection of CCR5 Δ 32 and C282Y in Europe: to be or not to be? (Hypothesis) 47
- Caenorhabditis elegans*
Strategic analysis in evolutionary genetics and the theory of games (Perspectives) 7
- Campos-Ortega, José
Prescience and critical thought: The life and science of José Campos-Ortega (Special feature) 217
- canalization
Inbreeding and sex: canalization, plasticity and sexual selection (Commentary on *J. Genet.* classic) 13

Subject index

- Acclimatization to high temperatures in inbred and outbred *Drosophila subobscura* (*J. Genet. classic*, 1956) 37
- Towards a genetic architecture of cryptic genetic variation and genetic assimilation: the contribution of K. G. Bateman (Commentary on *J. Genet. classic*) 223
- The genetic assimilation of four venation phenocopies (*J. Genet. classic*, 1959) 227
- cancer
- Mutational analysis of the *BRCA1* gene in 30 Czech ovarian cancer patients 63
- Carson, Hampton Lawrence
- Hampton Lawrence Carson (5 November 1914 – 13 December 2004) (Obituary) 85
- cat populations
- Population genetic analysis of cat populations from Mexico, Colombia, Bolivia, and the Dominican Republic: identification of different gene pools in Latin America 147
- cattle breeds
- Genetic diversity analysis of five cattle breeds native to China using microsatellites (Research note) 77
- CCR5Δ32
- Coincident natural selection of CCR5Δ32 and C282Y in Europe: to be or not to be? (Hypothesis) 47
- chiasma frequency
- Cytogenetic studies in some species of *Bromus* L., section *Genea* Dum. (Research note) 189
- China
- Genetic diversity analysis of five cattle breeds native to China using microsatellites (Research note) 77
- The loss of genetic diversity in the Chinese paddlefish (*Psephurus gladius* Martens) as revealed by DNA fingerprinting (Research note) 323
- Chinese paddlefish
- The loss of genetic diversity in the Chinese paddlefish (*Psephurus gladius* Martens) as revealed by DNA fingerprinting (Research note) 323
- chloroplast genome
- Comparative studies on codon usage pattern of chloroplasts and their host nuclear genes in four plant species 55
- chromosomal localization
- Chromosomal localization of autosomal mutations in *Drosophila nasuta nasuta* and *Drosophila nasuta albomicans* (Research note) 73
- chromosomal polymorphism
- Homogeneity of common cosmopolitan inversion frequencies in Southeast Asian *Drosophila melanogaster* 173
- circadian rhythm
- Behaviour genetics of *Drosophila*: Non-sexual behaviour (Review article) 195
- cis* regulatory elements
- Effect of copy number and spacing of the ACGT and GT *cis* elements on transient expression of minimal promoter in plants (Research note) 183
- coat characters
- Population genetic analysis of cat populations from Mexico, Colombia, Bolivia, and the Dominican Republic: identification of different gene pools in Latin America 147
- codon usage
- Comparative studies on codon usage pattern of chloroplasts and their host nuclear genes in four plant species 55
- Coilia ectenes*
- PCR-RFLP analysis of *cytochrome b* gene does not support *Coilia ectenes taihuensis* being a subspecies of *Coilia ectenes* (Research note) 307
- COMT* gene (human)
- Detection of new single nucleotide polymorphisms by means of real time PCR (Research note) 341
- conservation
- The loss of genetic diversity in the Chinese paddlefish (*Psephurus gladius* Martens) as revealed by DNA fingerprinting (Research note) 323
- courtship
- Inbreeding and sex: canalization, plasticity and sexual selection (Commentary on *J. Genet. classic*) 13
- Fertility, mating behaviour and sexual selection in *Drosophila subobscura* (*J. Genet. classic*, 1956) 17
- crossveinless* gene (*D. melanogaster*)
- Towards a genetic architecture of cryptic genetic variation and genetic assimilation: the contribution of K. G. Bateman (Commentary on *J. Genet. classic*) 223
- CTG repeats
- JP-3* gene polymorphism in a healthy population of Serbia and Montenegro 69
- cytochrome b* gene (*Bombyx*)
- Molecular phylogeny of the domesticated silkworm, *Bombyx mori*, based on the sequences of mitochondrial *cytochrome b* genes 137
- cytochrome b* gene (*Coilia ectenes*)
- PCR-RFLP analysis of *cytochrome b* gene does not support *Coilia ectenes taihuensis* being a subspecies of *Coilia ectenes* (Research note) 307
- cytokine
- Strategic analysis in evolutionary genetics and the theory of games (Perspectives) 7
- cytomixis
- Cytogenetic studies in some species of *Bromus* L., section *Genea* Dum. (Research note) 189
- Czech republic
- Mutational analysis of the *BRCA1* gene in 30 Czech ovarian cancer patients 63
- Danio rerio*
- Prescience and critical thought: The life and science of José Campos-Ortega (Special feature) 217
- Darwinism
- 80 years of watching the evolutionary scenery (Reprinted from *Science* 2004) 91
- Dendrobium*
- Orchid flower evolution (Research note) 81
- development
- Prescience and critical thought: The life and science of José Campos-Ortega (Special feature) 217
- development time
- Coexistence of three different *Drosophila* species by rescheduling their life history traits in a natural population 283
- developmental homeostasis
- Inbreeding and sex: canalization, plasticity and sexual selection (Commentary on *J. Genet. classic*) 13
- Acclimatization to high temperatures in inbred and outbred *Drosophila subobscura* (*J. Genet. classic*, 1956) 37

Subject index

- diapause
 Behaviour genetics of *Drosophila*: Non-sexual behaviour (Review article) 195
- disease resistance genes
 Genetics of adult plant stripe rust resistance in CSP44, a selection from Australian wheat (Research note) 337
- DNA fingerprinting
 AFLP fingerprinting analysis of some cultivated varieties of sea buckthorn (*Hippophae rhamnoides*) (Research note) 311
 The loss of genetic diversity in the Chinese paddlefish (*Psephurus gladius* Martens) as revealed by DNA fingerprinting (Research note) 323
- DNA melting curve
 Detection of new single nucleotide polymorphisms by means of real time PCR (Research note) 341
- DNA polymorphism
 JP-3 gene polymorphism in a healthy population of Serbia and Montenegro 69
 AFLP fingerprinting analysis of some cultivated varieties of sea buckthorn (*Hippophae rhamnoides*) (Research note) 311
- DNA sequence conservation
 Comparative studies on sequence characteristics around translation initiation codon in four eukaryotes (Research note) 317
- DNA sequence mining
 Exact Tandem Repeats Analyzer (E-TRA): A new program for DNA sequence mining 49
- Drosophila*
 Hampton Lawrence Carson (5 November 1914 – 13 December 2004) (Obituary) 85
 Behaviour genetics of *Drosophila*: Non-sexual behaviour (Review article) 195
 Prescience and critical thought: The life and science of José Campos-Ortega (Special feature) 217
 Coexistence of three different *Drosophila* species by rescheduling their life history traits in a natural population 283
 Fruitflies and the fountain of youth (Book review: *Methuselah flies: a case study in the evolution of aging*, edited by Michel R Rose and others) 347
- Drosophila ananassae*
 Coexistence of three different *Drosophila* species by rescheduling their life history traits in a natural population 283
- Drosophila biarmipes*
 Coexistence of three different *Drosophila* species by rescheduling their life history traits in a natural population 283
- Drosophila melanogaster*
 REML estimates of genetic parameters of sexual dimorphism for wing and thorax length in *Drosophila melanogaster* (Erratum) 94
 Homogeneity of common cosmopolitan inversion frequencies in Southeast Asian *Drosophila melanogaster* 173
 Towards a genetic architecture of cryptic genetic variation and genetic assimilation: the contribution of K. G. Bateman (Commentary on *J. Genet. classic*) 223
 The genetic assimilation of four venation phenocopies (*J. Genet. classic*, 1959) 227
 Is premating isolation in *Drosophila* overestimated due to uncontrolled factors? 259
 The *Hsp60C* gene in the 25F cytogenetic region in *Drosophila melanogaster* is essential for tracheal development and fertility 265
 Comparative studies on sequence characteristics around translation initiation codon in four eukaryotes (Research note) 317
- Drosophila nasuta albomicans*
 Chromosomal localization of autosomal mutations in *Drosophila nasuta nasuta* and *Drosophila nasuta albomicans* (Research note) 73
- Drosophila nasuta nasuta*
 Chromosomal localization of autosomal mutations in *Drosophila nasuta nasuta* and *Drosophila nasuta albomicans* (Research note) 73
- Drosophila pseudoobscura*
 Is premating isolation in *Drosophila* overestimated due to uncontrolled factors? 259
- Drosophila subobscura*
 Inbreeding and sex: canalization, plasticity and sexual selection (Commentary on *J. Genet. classic*) 13
 Fertility, mating behaviour and sexual selection in *Drosophila subobscura* (*J. Genet. classic*, 1956) 17
 Acclimatization to high temperatures in inbred and outbred *Drosophila subobscura* (*J. Genet. classic*, 1956) 37
- emigration behaviour
 Behaviour genetics of *Drosophila*: Non-sexual behaviour (Review article) 195
- endosymbiont
 Strategic analysis in evolutionary genetics and the theory of games (Perspectives) 7
- environmental stimulus
 Towards a genetic architecture of cryptic genetic variation and genetic assimilation: the contribution of K. G. Bateman (Commentary on *J. Genet. classic*) 223
 The genetic assimilation of four venation phenocopies (*J. Genet. classic*, 1959) 227
- Equus*
 Genetic diversity and bottleneck studies in the Marwari horse breed 295
- European populations
 Coincident natural selection of CCR5Δ32 and C282Y in Europe: to be or not to be? (Hypothesis) 47
 Mutational analysis of the *BRCA1* gene in 30 Czech ovarian cancer patients 63
 JP-3 gene polymorphism in a healthy population of Serbia and Montenegro 69
 Multiplex PCR for the assignment of some major branches of the Y chromosome tree (Research note) 303
- evolutionarily stable strategy
 Strategic analysis in evolutionary genetics and the theory of games (Perspectives) 7
- evolutionary biology
 Ernst Mayr (1904–2005) (Obituary) 87
 80 years of watching the evolutionary scenery (Reprinted from *Science*, 2004) 91
- evolutionary genetics
 Strategic analysis in evolutionary genetics and the theory of games (Perspectives) 7
 Towards a genetic architecture of cryptic genetic variation and genetic assimilation: the contribution of K.G. Bateman (Commentary on *J. Genet. classic*) 223
- Evolutionary Synthesis
 80 years of watching the evolutionary scenery (Reprinted from *Science* 2004) 91

Subject index

- Exact Tandem Repeats Analyzer
 Exact Tandem Repeats Analyzer (E-TRA): A new program for DNA sequence mining 49
- expressed sequence tag
 Exact Tandem Repeats Analyzer (E-TRA): A new program for DNA sequence mining 49
 Identification and chromosomal localization of repeat sequences through BAC end sequence analysis in Korean cattle (Research note) 329
- fecundity
 Inbreeding and sex: canalization, plasticity and sexual selection (Commentary on *J. Genet. classic*) 13
 Fertility, mating behaviour and sexual selection in *Drosophila subobscura* (*J. Genet. classic*, 1956) 17
- Felis silvestris*
 Population genetic analysis of cat populations from Mexico, Colombia, Bolivia, and the Dominican Republic: identification of different gene pools in Latin America 147
- fertility
 Inbreeding and sex: canalization, plasticity and sexual selection (Commentary on *J. Genet. classic*) 13
 Fertility, mating behaviour and sexual selection in *Drosophila subobscura* (*J. Genet. classic*, 1956) 17
 The *Hsp60C* gene in the 25F cytogenetic region in *Drosophila melanogaster* is essential for tracheal development and fertility 265
- fish
 Digenic control of colouration in the two-spot gourami *Trichogaster trichopterus trichopterus* (Research note) 179
 PCR-RFLP analysis of *cytochrome b* gene does not support *Coilia ectenes taihuensis* being a subspecies of *Coilia ectenes* (Research note) 307
- flower evolution
 Orchid flower evolution (Research note) 81
- foraging behaviour
 Behaviour genetics of *Drosophila*: Non-sexual behaviour (Review article) 195
- game theory
 Strategic analysis in evolutionary genetics and the theory of games (Perspectives) 7
- gastric cancer
 Effect of splice-site polymorphisms of the *TMPRSS4*, *NPHP4* and *ORCTL4* genes on their mRNA expression 131
- gene expression
 Comparative studies on sequence characteristics around translation initiation codon in four eukaryotes (Research note) 317
- genetic assimilation
 Towards a genetic architecture of cryptic genetic variation and genetic assimilation: the contribution of K.G. Bateman (Commentary on *J. Genet. classic*) 223
 The genetic assimilation of four venation phenocopies (*J. Genet. classic*, 1959) 227
- genetic constraint
 Strategic analysis in evolutionary genetics and the theory of games (Perspectives) 7
- genetic divergence
 Marker-aided genetic divergence analysis in *Brassica* 123
- genetic diversity
 Genetic diversity analysis of five cattle breeds native to China using microsatellites (Research note) 77
 Population genetic analysis of cat populations from Mexico, Colombia, Bolivia, and the Dominican Republic: identification of different gene pools in Latin America 147
 Genetic diversity and bottleneck studies in the Marwari horse breed 295
 PCR-RFLP analysis of *cytochrome b* gene does not support *Coilia ectenes taihuensis* being a subspecies of *Coilia ectenes* (Research note) 307
 The loss of genetic diversity in the Chinese paddlefish (*Psephurus gladius* Martens) as revealed by DNA fingerprinting (Research note) 323
- genetic heterogeneity
 Population genetic analysis of cat populations from Mexico, Colombia, Bolivia, and the Dominican Republic: identification of different gene pools in Latin America 147
- genetic homogeneity
 Homogeneity of common cosmopolitan inversion frequencies in Southeast Asian *Drosophila melanogaster* 173
- genetic parameters
 REML estimates of genetic parameters of sexual dimorphism for wing and thorax length in *Drosophila melanogaster* (Erratum) 94
- genetic polymorphism
 Effect of splice-site polymorphisms of the *TMPRSS4*, *NPHP4* and *ORCTL4* genes on their mRNA expression 131
 Genetic diversity and bottleneck studies in the Marwari horse breed 295
- genetic relationships
 AFLP fingerprinting analysis of some cultivated varieties of sea buckthorn (*Hippophae rhamnoides*) (Research note) 311
- genetic variation
 A family tree in every gene (Invited editorial) 3
 Homogeneity of common cosmopolitan inversion frequencies in Southeast Asian *Drosophila melanogaster* 173
 Towards a genetic architecture of cryptic genetic variation and genetic assimilation: the contribution of K. G. Bateman (Commentary on *J. Genet. classic*) 223
- geotaxis
 Behaviour genetics of *Drosophila*: Non-sexual behaviour (Review article) 195
- GT element
 Effect of copy number and spacing of the ACGT and GT *cis* elements on transient expression of minimal promoter in plants (Research note) 183
- Haldane, J. B. S.
 Ernst Mayr (1904–2005) (Obituary) 87
- Hanwoo cattle
 Identification and chromosomal localization of repeat sequences through BAC end sequence analysis in Korean cattle (Research note) 329
- haplotype assignment
 Multiplex PCR for the assignment of some major branches of the Y chromosome tree (Research note) 303
- Hawaiian *Drosophila*
 Hampton Lawrence Carson (5 November 1914 – 13 December 2004) (Obituary) 85

Subject index

- Hippophae rhamnoides*
 AFLP fingerprinting analysis of some cultivated varieties of sea buckthorn (*Hippophae rhamnoides*) (Research note) 311
 historical and genetic agreement
 Population genetic analysis of cat populations from Mexico, Colombia, Bolivia, and the Dominican Republic: identification of different gene pools in Latin America 147
 horse breeding
 Genetic diversity and bottleneck studies in the Marwari horse breed 295
Hsp60C gene (*D. melanogaster*)
 The *Hsp60C* gene in the 25F cytogenetic region in *Drosophila melanogaster* is essential for tracheal development and fertility 265
 human cDNA
 Comparative studies on sequence characteristics around translation initiation codon in four eukaryotes (Research note) 317
 human migration and cats
 Population genetic analysis of cat populations from Mexico, Colombia, Bolivia, and the Dominican Republic: identification of different gene pools in Latin America 147
 human races
 A family tree in every gene (Invited editorial) 3
 Huntington disease
JP-3 gene polymorphism in a healthy population of Serbia and Montenegro 69
IHH gene (human)
 Brachydactyly A1: New relatives for old families? (Commentary on *J. Genet. classic*) 95
 immune system
 Strategic analysis in evolutionary genetics and the theory of games (Perspectives) 7
 inbreeding
 Inbreeding and sex: canalization, plasticity and sexual selection (Commentary on *J. Genet. classic*) 13
 Acclimatization to high temperatures in inbred and outbred *Drosophila subobscura* (*J. Genet. classic*, 1956) 37
 Is premating isolation in *Drosophila* overestimated due to uncontrolled factors? 259
 interspecific competition
 Coexistence of three different *Drosophila* species by re-scheduling their life history traits in a natural population 283
 inversion polymorphism
 Homogeneity of common cosmopolitan inversion frequencies in Southeast Asian *Drosophila melanogaster* 173
 isozymes
 Marker-aided genetic divergence analysis in *Brassica* 123
 Japanese population
 Effect of splice-site polymorphisms of the *TMPRSS4*, *NPHP4* and *ORCTL4* genes on their mRNA expression 131
junctophilin-3 (*JP-3*) gene (human)
JP-3 gene polymorphism in a healthy population of Serbia and Montenegro 69
 Korean cattle
 Identification and chromosomal localization of repeat sequences through BAC end sequence analysis in Korean cattle (Research note) 329
 larval density
 Is premating isolation in *Drosophila* overestimated due to uncontrolled factors? 259
 Latin american history and cats
 Population genetic analysis of cat populations from Mexico, Colombia, Bolivia, and the Dominican Republic: identification of different gene pools in Latin America 147
 life history traits
 Coexistence of three different *Drosophila* species by re-scheduling their life history traits in a natural population 283
 Fruitflies and the fountain of youth (Book review: *Methuselah flies: a case study in the evolution of aging*, edited by Michael R. Rose and others) 347
 lifespan
 Fruitflies and the fountain of youth (Book review: *Methuselah flies: a case study in the evolution of aging*, edited by Michael R. Rose and others) 347
 linkage
 Dissecting the correlation structure of a bivariate phenotype: common genes or shared environment? 143
 liquid clearance
 The *Hsp60C* gene in the 25F cytogenetic region in *Drosophila melanogaster* is essential for tracheal development and fertility 265
 locomotor activity
 Behaviour genetics of *Drosophila*: Non-sexual behaviour (Review article) 195
 Mahalanobis's D^2
 Marker-aided genetic divergence analysis in *Brassica* 123
 Marwari horse
 Genetic diversity and bottleneck studies in the Marwari horse breed 295
 mate choice
 Inbreeding and sex: canalization, plasticity and sexual selection (Commentary on *J. Genet. classic*) 13
 Fertility, mating behaviour and sexual selection in *Drosophila subobscura* (*J. Genet. classic*, 1956) 17
 Is premating isolation in *Drosophila* overestimated due to uncontrolled factors? 259
 mating behaviour
 Fertility, mating behaviour and sexual selection in *Drosophila subobscura* (*J. Genet. classic*, 1956) 17
 Maynard Smith, John
 Strategic analysis in evolutionary genetics and the theory of games (Perspectives) 7
 Mayr, Ernst
 Ernst Mayr (1904–2005) (Obituary) 87
 metacarpophalangeal profile
 Brachydactyly A1: New relatives for old families? (Commentary on *J. Genet. classic*) 95
 microsatellites
 Genetic diversity analysis of five cattle breeds native to China using microsatellites (Research note) 77

 Fertility, mating behaviour and sexual selection in *Drosophila subobscura* (*J. Genet. classic*, 1956) 17
- silkworm
 Molecular phylogeny of the domesticated silkworm, *Bombyx mori*, based on the sequences of mitochondrial *cytochrome b* genes 137
- simple sequence repeats
 Exact Tandem Repeats Analyzer (E-TRA): A new program for DNA sequence mining 49
- single nucleotide polymorphism
 Detection of new single nucleotide polymorphisms by means of real time PCR (Research note) 341
- Southeast Asian *Drosophila*
 Homogeneity of common cosmopolitan inversion frequencies in Southeast Asian *Drosophila melanogaster* 173
- speciation
 Hampton Lawrence Carson (5 November 1914 – 13 December 2004) (Obituary) 85
- species coexistence
 Coexistence of three different *Drosophila* species by rescheduling their life history traits in a natural population 283
- spermatogenesis
 The *Hsp60C* gene in the 25F cytogenetic region in *Drosophila melanogaster* is essential for tracheal development and fertility 265
- splice site
 Effect of splice-site polymorphisms of the *TMPRSS4*, *NPHP4* and *ORCTL4* genes on their mRNA expression 131
- stripe rust
 Genetics of adult plant stripe rust resistance in CSP44, a selection from Australian wheat (Research note) 337
- tandem repeat
 Exact Tandem Repeats Analyzer (E-TRA): A new program for DNA sequence mining 49
- TATA box
 Effect of copy number and spacing of the ACGT and GT *cis* elements on transient expression of minimal promoter in plants (Research note) 183
- thorax length
 REML estimates of genetic parameters of sexual dimorphism for wing and thorax length in *Drosophila melanogaster* (Erratum) 94
- TMPRSS4* gene (human)
 Effect of splice-site polymorphisms of the *TMPRSS4*, *NPHP4* and *ORCTL4* genes on their mRNA expression 131
- trachea
 The *Hsp60C* gene in the 25F cytogenetic region in *Drosophila melanogaster* is essential for tracheal development and fertility 265
- tradeoffs
 Coexistence of three different *Drosophila* species by rescheduling their life history traits in a natural population 283
- transcription
 Effect of copy number and spacing of the ACGT and GT *cis* elements on transient expression of minimal promoter in plants (Research note) 183
- translation initiation codon
 Comparative studies on sequence characteristics around translation initiation codon in four eukaryotes (Research note) 317
- Trichogaster trichopterus trichopterus*
 Digenic control of colouration in the two-spot gourami *Trichogaster trichopterus trichopterus* (Research note) 179
- Triticum aestivum*
 Comparative studies on codon usage pattern of chloroplasts and their host nuclear genes in four plant species 55
 Genetics of adult plant stripe rust resistance in CSP44, a selection from Australian wheat (Research note) 337

Subject index

two-spot gourami			
Digenic control of colouration in the two-spot gourami <i>Trichogaster trichopterus trichopterus</i> (Research note)	179	and genetic assimilation: the contribution of K.G. Bateman (Commentary on <i>J. Genet. classic</i>)	223
wheat		The genetic assimilation of four venation phenocopies (<i>J. Genet. classic</i> , 1959)	227
Comparative studies on codon usage pattern of chloroplasts and their host nuclear genes in four plant species	55	<i>Wolbachia</i>	
Genetics of adult plant stripe rust resistance in CSP44, a selection from Australian wheat (Research note)	337	Strategic analysis in evolutionary genetics and the theory of games (Perspectives)	7
wing length		Y-chromosome typing	
REML estimates of genetic parameters of sexual dimorphism for wing and thorax length in <i>Drosophila melanogaster</i> (Erratum)	94	Multiplex PCR for the assignment of some major branches of the Y chromosome tree (Research note)	303
wing thorax ratio		<i>Zea mays</i>	
Coexistence of three different <i>Drosophila</i> species by rescheduling their life history traits in a natural population	283	Comparative studies on codon usage pattern of chloroplasts and their host nuclear genes in four plant species	55
wing venation		zebrafish	
Towards a genetic architecture of cryptic genetic variation		Prescience and critical thought: The life and science of José Campos-Ortega (Special feature)	117

Journal of Genetics, Volume 84, 2005
