

## Subject Index

### Astrophysical Processes

- A Self-similar Flow Behind a Shock Wave in a Gravitating or Non-gravitating Gas with Heat Conduction and Radiation Heat-flux (*J. P. Vishwakarma & Arvind K. Singh*), 53
- The Effect of Hypothetical Diproton Stability on the Universe (*R. A. W. Bradford*), 119
- Rapid Neutron Capture Process in Supernovae and Chemical Element Formation (*Rulee Baruah, Kalpana Duorah & H. L. Duorah*), 165
- On Out of Plane Equilibrium Points in Photo-Gravitational Restricted Three-Body Problem (*M. K. Das, Pankaj Narang, S. Mahajan & M. Yuasa*), 177
- Analytical Treatment of the Two-Body Problem with Slowly Varying Mass (*W. A. Rahoma, F. A. Abd El-Salam & M. K. Ahmed*), 187

### Cosmology

- The Ks-band Tully–Fisher Relation – A Determination of the Hubble Parameter from 218 ScI Galaxies and 16 Galaxy Clusters (*David G. Russell*), 93

### Extragalactic Astronomy

- The Fate of Dwarf Galaxies in Clusters and the Origin of Intracluster Stars (*Paramita Barai, William Brito & Hugo Martel*), 1
- GMRT Detection of a New Wide-Angle Tail (WAT) Radio Source Associated with the Galaxy PGC 1519010 (*N. G. Kantharia, M. Das & Gopal-Krishna*), 37
- Close Separation Triple System QSO 1009-0252 with Discordant Redshifts: Is the Spectrum of One Component Blueshifted? (*D. Basu*), 133

### Solar Astrophysics

- Predicting Maximum Sunspot Number in Solar Cycle 24 (*Nipa J. Bhatt, Rajmal Jain & Malini Aggarwal*), 71
- Reconnection in Solar Flares: Outstanding Questions (*Hiroaki Isobe & Kazunari Shibata*), 79

**Stellar Astrophysics**

Spectroscopic Binaries near the North Galactic Pole Paper 12A: 6 Boötis  
(*R. F. Griffin*), 87

A Method for Judging Decay or Growth of the Magnetic Field of Pulsar  
(*Lin-Sen Li*), 145

Velocity Curve Studies of Spectroscopic Binary Stars V380 Cygni, V401 Cyg, V523  
Cas, V373 Cas and V2388 Oph (*K. Karami & R. Mohebi*), 153
