

Information and Announcements

SciDev.Net: An Essential Science Resource

The **Science and Development Network** (www.scidev.net) is a free access science website supported by the journals *Nature* and *Science*, as well as the Academy of Sciences for the Developing World (TWAS). It is a leading online source of news, views and analysis about the role of science and technology in the social and economic growth of developing countries. Visit the website to find out more: www.scidev.net

The website: The website covers key science, health and environmental issues, including HIV/AIDS, climate change, agricultural biotechnology, the brain drain and biodiversity.

Daily news on development-related science and technology issues; Dossiers and quick guides that provide useful resource material on key issues such as climate change, the ethics of medical research and GM crops; and regional gateways that cover news for South Asia, China, Latin America, sub-Saharan Africa and the Middle East and North Africa.

The website contains invaluable material for those taking – or teaching – science and technology-related courses at universities and higher education institutes, particularly courses that address the impact of science and technology on society and the interaction between science and politics.

A unique feature of SciDev.Net is free access to selected articles in *Nature* and *Science* that are relevant to developing countries, under a special arrangement with the two journals. It also provides information on jobs, grants, events, fellowships, book reviews and more.

Teachers: can download free news, feature and opinion articles for class handouts; use SciDev.Net's policy briefs and opinion articles for group discussions; and add SciDev.Net articles to reading lists.

Students and researchers: can use our links to key documents and organisations for research projects; keep up-to-date with the latest news to inform teaching and research; find out about grants, jobs and events; and explore the techniques of science communication.
