publications translated into language that is accessible to a wider readership. Recent issues have featured perspectives on the Forest Rights Act, and a debate on relocation for conservation. Upcoming issues contain special sections on the role of field assistants in wildlife and conservation biology, and on the roles and actions of big international conservation NGOs.

NMR School (October 19–31, 2009)

The Centre is organising an NMR School (Theory and Practice of Nuclear Magnetic Resonance Spectroscopy for Research Students) from October 19–31, 2009. The training school will consist of lectures, tutorials and practice sessions. Students pursuing a research program (MPhil, PhD, Post doctoral) are invited to apply. Participation is limited to 20 students. Traveling as well as a maintenance allowance will be paid by the Centre. There is no registration fee. Selection will be made based on academic record and research experience. Preference will be given to applicants from colleges and universities.

The application form may be downloaded from the Centre’s website.

The completed form may be sent by post or by email, not later than September 30, 2009.
