Science is for all!

“Science is not a boy’s game, it’s not a girl’s game. It’s everyone’s game. It’s about where we are and where we’re going. Space travel benefits us here on Earth. And we ain’t stopped yet. There’s more exploration to come.”

– Nichelle Nichols, former NASA Ambassador and Star Trek actress.

Nichols’s groundbreaking performance as Lieutenant Uhura inspired black women everywhere to both break into acting and pursue aeronautics. From 1977 to 2015, during her time as a representative for NASA, volunteered her time to promote NASA’s programs, and to recruit diverse astronauts, including women and ethnic minorities to join the space program.
