

### **Some Thoughts on Research!**

“Research is to see what everybody else has seen, and to think what nobody else has thought.” – Albert Szent-Györgyi

“Research has formalized curiosity. It is poking and prying with a purpose.” – Zora Neale Hurston

“The measure of greatness in a scientific idea is the extent to which it stimulates thought and opens up new lines of research.” – Paul Dirac

“If we knew what it was we were doing, it would not be called research, would it?” – Albert Einstein

“The important thing in science is not so much to obtain new facts as to discover new ways of thinking about them.” – William Lawrence Bragg
