About the College

Deen Dayal Upadhyaya College was established in 1990 which is constituent college of University of Delhi, assures an academic curriculum that provides a global perspective to all its under-graduate programmes. The college has been catering to students across varied socio-economic backgrounds.

About Women in Science Panel

The Council of the Indian Academy of Sciences had in January 2003 constituted a committee on "Women in Science" to look into the issues of women scientists. This led to the formation of a Panel for "Women in Science" (WiS), in January 2005, to study the issues of women scientists and to suggest measures for obtaining suitable solutions. The Panel of Women in Science has embarked on a new initiative of conducting a series of seminars/lectures on the topic "Women in Science : A Career in Science" under their Role Model Program. These seminars are conducted to address the various career options for women in the field of science. The seminars will have presentations by leading women scientists to showcase the work done by women scientists to an audience of both the genders.
