Seminar on**Women in Science & Technology:
Career in Science & Technology**

on

15-16 May 2010

Organized By

**Centre for Empowerment of
Women**

Anna University, Chennai – 600 025.

In collaboration with

**“Women in Science” (WIS)
Indian Academy of Science-
Bangalore**

**Venue: Auditorium,
Anna University
Chennai - 600 025.**

About the Seminar

Science and Technology are the driving force of a nation's development. Becoming a developed nation is possible only when the women force make matching contributions in science and technology. In India women are breaking the glass ceiling in the banking, chemical, biotechnology, information technology and instrumentation industries and other areas. However, in spite of their high caliber and commitment women are underrepresented in science and technology the world over and especially in India.

This seminar **“Women in Science & Technology: Career in Science & Technology”** is jointly being organized by the Centre for Empowerment of Women, Anna University, Chennai and Women in Science, Indian Academy of Sciences, Bangalore.

Aims to achieve the following objectives:

- To edify the participants with the expertise of renowned personalities from diverse fields. Talks by eminent speakers followed by a panel discussion.
- To motivate women researchers.

About the Centre for Empowerment of Women and Anna University Chennai

The Centre for Empowerment of Women, Anna university Chennai was established in the year 2002 with the objective of empowering girl students, women research scholars, women faculty members and staff.

In the past the Centre for empowerment of Women has conducted the following seminars:

1. ‘Academic Challenges for women in the 21st Century’ held November 30- December 2, 2002.
2. ‘Empowerment of Women through Technology & Science’ held between August 20- 31, 2002.
3. “Role of women scientists and Technologist for Societal Development” held between March 5th - 9th 2005.

Anna University Chennai is a premier technical university in India and was established in the year 1978 as unitary type of university. It offers higher education in engineering, Technology and allied sciences relevant to the current and long term needs of the society. The university not only promotes research and disseminates knowledge; it also fosters cooperation between the academic and industrial communities. In the year 2002 this university has become the largest affiliating technical; university of India.

About Chennai

Chennai is a metropolitan city, well connected by road, air and rail. This city has many tourist attractions such as the marina beach, many ancient temples and archaeological sites. Chennai is renowned for its silks and shopping arcades. The world heritage site at Mamallapuram, about 60 kms from Chennai is an added attraction.
